A Point on Which all Physicians Agree.

Out of ten thousand regular physicians you cannot find one who will not say that stimulants and invigorants are absolutely necessary in medical practice. And yet in bygone years humane practitioners have hesitated to administer them, because the fiendish ingenuity of wretches who make merchandise of human infirmities had so polluted and deteriorated them that the remedy was deemed as dangerous as the disease. This perplexity is happily done away with. Physicians know, because the first analytical chemists of the age have demonstrated the fact, that Hostetter's Celebrated Stomach Bitters are absolutely and entirely free from all pernicious elements. Hence they have been introduced into the United States Army, and are accepted, wherever the testimony of the wise, the intelligent and the philanthropic is rated at its just value, as the best protective against and cure for all diseases arising from impurity in the air or other unhealthy climate influences, that has ever been tested by experience. In cases of Dyspepsia and Liver Complaint, we state without qualification or reservation, that the Bitters are as nearly infallible as anything prepared by human skill can be.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Fourth street.

Art Matters.

Mr. Charles Knap has just added to his collection of pictures two beautiful landscapes by Bierstadt, and such as only that artist can paint. One is called Mount Adams, and represents a scene in Washington Territory, Oregon; the other represents a scene in the famous valley of the Yosemite. Both are pleasing pictures, and painted with all that delicacy and tenderness for which Bierstadt is remarkable. These pictures, by the same hand, exhibit nature in opposite moods, in both of which the artist has grasped all its details with great success. There is the same delicate blending of undertones, the same exquisite handling of color, the same wonderful expression of light and shade, the crispy, carefully-painted foreground, and the marvellous perspective, seen in the artist's great pictures, and which have made them famous wherever art is truly appreciated. We are glad to hear that the public will in a few days have an opportunity of seeing these fine pictures, Mr. Knap having consented to place them on exhibition.—*Washington Intelligencer.*

A Negro Duel.

If anybody doubts the capacity of the negro, the following paragraph will dissipate his skepticism, especially if he be a believer in the code of chivalry:

An "affair of honor" came off Saturday at Hutchinson's Island, near Savannah, between knights of the cleaver. One negro butcher insulted another, when a challenge followed. The principals, with seconds, repaired to Hutchinson's Island, when they blazed away at each other, and succeeded in wounding one of the seconds, but escaped without any bodily injury to themselves. This occurrence satisfied the wounded honor of the colored gemmen, and the whole party made friends. After drinking two bottles of whisky, and playing several games of "seven up," they returned to the city, and were arrested at the market Saturday evening by a file of soldiers, and confined in the barracks. Verily, these are queer times we live in.

A RECONSTRUCTED GOVERNOR'S OPINION OF FEDERAL SOLDIERS.—Governor Humphreys, of Mississippi, in a letter dated January 19th, denying the report of troubles in Kempee county, and the interference of Federal soldiers, writes:

"I heard of no disturbance or disorder in that county that needed my attention. I have never doubted the willingness and ability of the civil officers and volunteer companies to maintain peace and order within the State without the assistance of the United States military.

"I have yet to learn that the United States troops are needed as useful in restoring peace and order, but, on the other hand, have found them a disturbing element, *a nuisance and a blighting curse* to the quiet, prosperity and happiness of both races, in spite of the earnest and honorable efforts of many of their commanding officers."

THE EULOGY UPON PRESIDENT LINCOLN.—Monday, February 12, the birthday of the late President, Abraham Lincoln, has been fixed upon by the Joint Congressional Committee, Hon. Solomon Foot, of Vermont, Chairman, for the testimonial to his memory by Congress, in the Capitol. Hon. George Bancroft, of New York, has accepted the invitation of the committee to pronounce the eulogy on the occasion, and the ceremonies will take place in the Hall of the House of Representatives, in presence of both branches of Congress, the President and Cabinet, the Judges of the Supreme Court, the foreign legations, distinguished officers of the army and navy, &c. The details of the arrangements are not yet completed, but the committee are earnestly engaged in plans for giving as much effect to the testimonial as possible. Mr. and Mrs. Bancroft will be the guests of President Johnson at the Executive Mansion, by special invitation of the President, during their visit to Washington.

A FLORENCE correspondent of the London *Daily News* reports that Admiral Goldsborough had received orders to proceed instantly with all the powerful squadron under his orders, out of the Mediterranean to Lisbon, taking with them the entire twelve months stores which the Americans possess in those waters. It was believed this order had something to do with reports of trouble on the Rio Grande, and that the destination of the Admiral's squadron is the Gulf of Mexico.

LATE OIL INTELLIGENCE.

WEST HICKORY AND DENNIS RUN.

Editors Gazette:—As your paper has ever manifested a live interest in matters pertaining to the oil trade, the writer, having just returned from Tidioute, takes pleasure in giving you some items which, just now, it is thought, will be of general interest. In no portion of the oil region is there at the present time greater activity than on Dennis Run and West Hickory, and certainly, at no other point is the prospect more encouraging. On Dennis, there are twenty-one producing wells, varying in yield from ten barrels to two hundred barrels per day, and what is remarkable' there has been but a single failure on this stream to obtain oil in paying quantity, and in this well, owned by Mr. Babcock, of Rochester, N. Y., the show was very promising, but it was found impossible, with two week's constant pumping, to exhaust the water.

Among the best wells yet obtained, are the Mosler, 75 barrels; Jennings, 60 barrels, Schughart, 50 barrels; Keystone, 50 barrels; Pilgrim, 45 barrels; Slocum, 200 barrels. These figures are not exaggerated, as is too often the case in estimating the yield of oil wells, but are given as the result of careful investigation. The "Slocum" is near the headwaters of Dennis Run, and but a few rods from West Hickory. As it is now the largest on the Run, property on the headwaters of both Dennis and West Hickory is in great demand.

The land of the "Triumph Oil Co.," comprising some 250 acres, owing to its proximity to the large producing wells, is regarded as very valuable. The Company are leasing in lots of one acre at one half royalty, and from their agent, Mr. J. S. Weible, I learned that already twenty-five to thirty leases had been made, and on several of which I noticed that operations had been commenced. The Ralston, and New York and Allegheny Oil Companies, who own the landed interest in most of the producing wells on Dennis Run, in view of their present daily receipts, and the large number of wells in progress, should rank among the best oil companies in the country. Altogether, the prospect for those interested in this region is most encouraging and certainly is not surpassed by any other locality.

The Franklin and Warren Railroad, now graded two-thirds of the distance to Irvin's Station, Pittsburgh and Erie Railroad (fourteen miles from Tidioute), is under contract to be in running operation in May next, when the oil obtained from Dennis Run, and the upper portion of West Hickory can be shipped direct by rail to any of the eastern markets.

As I propose making a trip down West Hickory to the river, I will, in my next, give you a statement of what is being done, prospects, &c., along the entire length of this stream.

MISCELLANEOUS.

From our exchanges we extract the following items of information in regard to the petroleum regions:

OIL CREEK.—The Maple Grove well, on Blood farm, is pumping sixty barrels per day; the Collier wells forty, and the Wilkins well thirty. Ocean well, No. 2, on the Stevenson farm, is flowing three hundred barrels per day. No. 27, on the same farm, is flowing two hundred and fifty barrels per day.

The G. W. McClintock farm has now thirty-seven producing wells. No. 212, struck December 22, is pumping fifty barrels.

CHERRY RUN.—The Criswell well is producing one hundred barrels per day; the Mountain well, thirty-five barrels per day; the Reed well, sixty barrels.

MILLER FARM.—Is one mile above Shaffer, on the Oil Creek Railroad. The pipe for carrying oil, from Pit Pole empies itself at this point, and the oil is shipped by rail to market. There are no producing wells here, but a liberal offer by one of the prominent companies owing lands near by has stimulated work.

BENNEHOFF RUN.—The present daily product is estimated at twelve hundred barrels. The number of producing wells is fourteen. The best well, the Rundle, is stated be flowing two hundred barrels per day. Ten new wells are nearly ready to be tested.

PITHOLE CREEK.—Recent advices from Holmden Farm state that No. 1 Twin well is pumping fifty barrels per day, and Twin well No. 3 twenty barrels. No. 42 is pumping one hundred barrels per day.

Engine-houses of wells Nos. 1 and 2, lease 5, were burned last week.

CHURCH RUN.—This run enters Oil Creek, near Titusville. The Eureka well is pumping thirty-five barrels—the only producing well. There is considerable activity in leasing, and several wells are going down.

WEST HICKORY.—The Paxton Farm is yielding about one hundred barrels per day. It is stated that the original West Hickory well has paid its owners over $100,000 net profit within the last five months.

Murder of a Northern General in Mississippi.

No manifestation of the continued existence of the spirit of rebellion is more unpardonable than the disposition occasionally shown to perpetrate acts of violence upon, and even to murder, northern men who make their homes in the south, and who are guilty of no other offence than establishing themselves in that section. A notable instance reported recently is thus referred to by the Richmond (Va.) *Republic* of the 31st ult.:

"A paragraph has recently gone the round of the papers, and which we have not yet seen contradicted, stating that on the 6th of January, General T. O. Osborn, of the United States volunteer service, was murdered by a body of citizens, near Greensville, Mississippi. It appears that the General, who hails from Illinois, had recently purchased a plantation at Greensville, was waited upon by a self-constituted committee of his neighbors, and notified to leave the place in twenty-four hours, and if found there afterwards, he would be killed. The result is announced by the paragraph itself in the words that 'he stayed on his plantation and was assailed and shot.' We presume that not even the most fanatical hater of 'Yankees' will be found to apologize for, still less approve, such a barbarous deed, or to deny the perfect moral and constitutional right of General Osborn, or any other man, from any State in the Union, to settle anywhere within its limits; nor will they be slow to see that the recurrence of such affairs will most infallibly delay for an indefinite period the rehabilitation of our local governments, and prolong that military occupation and administration of affairs which every patriot must wish to see soon and finally superceded by the civil power. If they cannot see this last, we assure them that they have a very inadequate idea of the determination and power of the United States to protect all its loyal citizens at whatever cost."

If this is to be the entertainment prepared for the people of a magnanimous republic, and such terrible deeds are practised even while their authors are applicants for clemency, destruction will be a more appropriate destiny than reconstruction for the men base, cowardly, cruel, and wicked enough to perpetrate them.—*Phil. Press.*

The Conduct of the Rebels.

It is now no longer to be denied that in many cases where the Government has bestowed its confidence upon returned rebels, it has been shamefully and cruelly abused. The murder of General Osborn, of Illinois, by an organized band of ruffians in Mississippi, has been followed, it is said, by such a storm of indignation in his State that Governor Oglisby is about to ask the protection of President Johnson over all those from Illinois who go into the south for business and other purposes. A Union delegation from Alabama are now here, insisting that the spirit of secession is more rife there than ever. A letter is published in this morning's *Chronicle*, from a distinguished gentleman in Georgia, to one of the northern friends of President Johnson declaring that secession is politically stronger than before the war, and Unionism more under the ban than ever. The friends of the Republic in Eastern Virginia are greatly alarmed by the violence and brutality of the ruffians who were in the rebel army, and are now back at their homes. The state of things in Maryland you have had fully described to you in the letters of "Occasional." In Eastern Virginia the bitterest expressions are constantly heard against the Government, and the most violent movements would be resorted to if it were not for the presence of the Union troops. John C. O'Neil, an old citizen of Pennsylvania, now resident in New Orleans, in several letters to his friends here, declares that the secessionists are more defiant and insolent than ever. Another well-known citizen of Philadelphia, Mr. John C. Keffer, now at his home, states that the loyal whites and blacks in Alabama are in constant danger. What Governor Brownlow has said of the rebel spirit in Tennessee, has been published in all the papers. General Fiske, lately in command in Kentucky, is here, and gives a terrible account of their machinations in that state—proved, as you will perceive, by intelligence confirmatory of the worst fears of the patriot. Such are a few items only—all from the best authority, and all contributing to the same conclusion, namely—that the policy adopted by Congress is the best, if not the only one—that the loyal men of the South must be protected and enfranchized at all hazards, and that no more favors should be bestowed upon traitors who have again proved themselves unworthy of the Government they tried to put to death.—*Washington Correspondence Philadelphia Press.*

THE Brandon *Mississippian*, of a recent date, says that a party of deserters headed by Jas. Brown, John Rayburn and Felix Rayburn, went to the residence of Alexander Magrew recently, and concealed themselves in his crib, awaiting his return from church, with the intention of waylaying and killing him. Mr. Magrew did not return; as they expected, and they set fire to his house and left. Mr. Magrew returned home next morning, selected a few friends, started in pursuit, overtook them in the evening, and in attempting to arrest them, killed Felix Rayburn and captured John Rayburn. The others made their escape. A few days afterward, having learned that James Brown was one of the incendiaries, Magrew and friends proceeded to his residence to arrest him. As soon as Brown saw that his house was surrounded, he got his gun and shot at the crowd, killing George Wait. Magrew's party then fired and killed Brown.

MR. T. YANCEY, of De Soto county, Mississippi, writes to Gen. Fisk, of the Freedmen's Bureau, concerning a colored girl who had been sold away from her parents:

"As for recognizing the right of *freedmen* to their children, I can say that not one Southern man nor woman in the whole South recognizes the negro as a *freedman*, but as *stolen* property forced by the bayonets of the *damnable* United States Government."

Mr. Yancey's views certainly entitle him to a pardon. We haven't a doubt that he and those like him will take all the oaths with alacrity—and keep them as long as they see fit.—*N. Y. Trib.*

More About the Bagdad Raid.

RUSSIAN ANNEXATION IN ASIA.

NEW YORK, Feb. 6.—A meeting of the Joint Committees for the erection of a monument in this city, to the memory of the late President Lincoln, has just taken place in this city. The following preamble and resolutions were adopted: Whereas, the sum of fifteen thousand dollars has been raised for the contemplated monument, therefore, *Resolved*, that a committee of finance be appointed to receive subscriptions to make up the requisite amount.

The Richmond *Whig* says: Col. G. B. Cadwalader having been directed to inspect Belle Isle, in order to ascertain the number and condition of the Union soldiers there buried, reports that a tract about one hundred yards square has been set apart on the Isle, enclosed with a substantial board fence, which contains one hundred and fifty bodies, of which one hundred and twenty are legibly marked with good head and foot boards.

The Norfolk *Virginian* is informed that Ex-Gov. Moorhead, of North Carolina, was arrested by the Federal authorities for interfering with the sale of some property previously advertised to be sold by the War Department.

An order has been issued discontinuing the Missouri as a military command.

The *Herald's* Havana letter gives the experience of one of Maximilian's garrisons at Bagdad. He says: We saved ourselves by flight but, how, being a fugitive, he managed to know all about what transpired is not explained. He charges that the attack on the town and its capture was entirely the work of American soldiers, principally colored from Texas, commanded by United States officers, and ferried across the river by a United States revenue vessel.

He gives the particulars of the alleged horrible scenes of pillage, robbery, murder, outrages on women, and all manner of crimes to which the captors for some hours devoted their entire attention, and in which it is said they were assisted by General Weitzel's officers, about twenty in number, some of whose names are given. Indeed, this Imperial historian boldly declares that even the soldiers sent over by Gen. Weitzel to preserve order, took an equal part with the raiders in the pillaging. The spoils, are described as immense in quantity and value and greatly enriching many. The American officers are said to have been all despatched across the Rio Grande to Clarksville and Brownsville, Texas, and thence were transported to Brazos.

A letter from a gentleman in Hayti, giving an account of a visit of Secretary Seward to that republic during the West India trip says the interview between him and President Jeffrard was very cordial and friendly, and lasted about two hours. Upon the departure of the Secretary a salute in his honor was fired by the Haytien war steamer Golates.

The fear of Russian encroachments in Central Asia, has latterly assumed a new phase. It is now conceded by the English Press that the slow but sure advances made by the Russian Government in Central Asia are endangering the future safety of England's Indian Empire.

The Bombay *Gazette* admits that England is utterly helpless to prevent Russia from proceeding in her career of conquest, if it is her will to carry out her policy of annexation.

The same paper bears testimony to the wonderful civilizing influence, which the Europeans are exercising on her recent acquisitions, and adds, that Russia is the only power that can successfully accomplish this work.

SPEECH OF THE FRENCH EMPEROR.

Promises to Withdraw from Mexico.

BOSTON, Feb. 6.—The steamer Palestine, from Liverpool on the 23d ult., has arrived.

The Emperor Napoleon, in his speech on the 22d ult. says that arrangements are being made to withdraw the French troops from Mexico, and it is hoped that this will pacify the people of the United States, who were invited to join the expedition but declined, although such expeditions are not opposed to their interests. The remainder of the speech refers to purely home questions.

There was little doing in Liverpool on the 23d. Cotton—sales of 8,000 bales; prices are disposed to decline; but quotations are unchanged. Consols closed dull at London on the 22d, at 86⅞@87 for money, and 87⅛@87¼ for account. Erie shares and United States Five-Twenties opened strong at an advance, but closed easier. Illinois Central Shares were flat. Money was easier.

NEW YORK, Feb. 6—The *Tribune's* special says the government directors, commissioners and engineers of the Pacific Railroad, who have been in session at Washington, adjourned yesterday, after adopting regulations intended to secure the speedy construction of that road. While in session the board received highly encouraging reports from the west relative to the progress of the great work.

Many vacancies existing in the Medical Corps of the navy, a board of medical officers will convene on the 12th of March for the examination of candidates for admission as assistant surgeons in the navy. One board will sit at Brooklyn Navy Yard and another at Chelsea, Massachusetts. Gentlemen desiring to appear before these boards for examination will make application to Secretary Welles or Dr. Horwitz, Chief of the Medical Bureau, stating their age, place of birth, and the particular board they desire to appear before, with testimonials as to personal character. Applicants are not to be under twenty-one or over twenty-six years of age.

The military council, composed of Generals Thomas, Sherman and Meade, which has recently been in session in Washington, has finished its deliberations, the result of which will be laid before the Committee on Military affairs within a few days.

Another company of northern men who went South with a view of investing their money and establishing homes, have returned, satisfied that the lives and property of loyal men are not safe under the governments now established there. One of their number, who purchased a place within eighty miles of Vicksburg, was notified by a mob to leave within five days. He at once set his freedmen to work building a small fort on which he rested the American flag. He then armed his freedmen and notified the mob that he was ready to leave if they were ready to force him away. The mob had not disturbed him at last accounts.

An association of State and city school Superintendents, meets in Washington to-day, to make a permanent organization. Prominent among the subjects of discussion will be the necessity of a National Bureau of Education. The leading educators of the country are to be present.

General Sherman was in the gallery of the Senate during the delivery of Mr. Sumner's speech. He was to have left last night for his post, the Convention for which he and other Generals were summoned to Washington having ended its consideration of the various military measures before Congress.

The *World's* Washington special says: It is stated that our Government has arrived at an understanding with the French Government, and that to all intents and purposes the difficulty between them is settled. The French are about to leave Mexico, and the United States Government has waived any intention to enforce the Monroe doctrine. There will probably be no recognition of Mexico, but there is a pledge expressed or implied that the United States will take no overt measures to depose Maximilian and put Juarez or any one else in his place. While it is not likely that formal diplomatic relations will be opened with the Empire, a *quasi* recognition will result from the present understanding; that is, Consuls will be appointed and employed in their proper function of protection to American trade in Mexico. It is not likely that the French will leave Mexico before the close of the year, and while they are going their place will be supplied by Austrians, Belgians, and such Mexicans as accept the Empire.

The *Tribune's* special Washington dispatch says: The Government is taking the ground that blockade running was a part of the rebellion, and that all property used, and all the profits made in it, are subject to the rules of war. Agents have been sent South who have seized all the cotton and other property intended for blockade running, and have called upon all engaged in this business to state, under oath, their associates, the amount of their business, their profits, &c. Most of the witnesses have told the full tale of their business, but one or two, probably unwilling to disgorge, were sent to prison on account of their refusal to testify.

One of the largest stockholders in this enterprise was the Hon. G. A. Trenholm, late Secretary of the Treasury of the so-called Confederate States, thus carrying on the double business of guarding the Confederate money and filling his own pockets at the same time. In the course of his examination, which took place on the 16th ult., Mr. Trenholm stated that just before the evacuation of Richmond, the total amount of specie in the Confederate vaults was from $350,000 to $400,000, of which sum about $300,000 was in the treasury at Richmond. This $300,000 was carried off and distributed, partly among the soldiers of Johnston's army, and partly among the military escort of Jeff. Davis, at the time of their disbandment.

Mr. Trenholm stated, that in his opinion, Mr. Davis and the other officers refused to receive any part of it. The examination of Mr. Trenholm, as ex-Secretary and ex-blockade runner, was quite long, but showed much frankness on his part in revealing all he knew.

The *World's* special says: The House Committee on Banking and Currency had under consideration yesterday an application of a bank for an amendment to the National Banking Law so as to allow more state banks to come in under the provisions of the law. The committee decided adversely, thus establishing a precedent for all such future applications. The committee are against inflating the currency by increasing the national banking capital. The committee have done nothing on the proposition to remove the Bureau to New York.

REVENUE COMMISSIONERS' REPORT.

Government Interference in Behalf of Fenians Asked.

NEW YORK, Feb. 6.—A special report by Mr. Hays, of the United States Revenue Commissioners, was submitted in Congress to-day. It recommends a special permanent tax of 7-10 of one per cent. in specie or one per cent. in lawful money, upon all securities and other indebtedness of the United States, owned at the time of the passage of the act either in the United States or abroad, the proceeds to be held and applied as a trust fund for the payment of the public debt. The majority of the Commissioners were opposed to the proposition, but agreed that Mr. Hays might present it, with his conclusions and the facts and arguments to support them, in a separate report, and that it would meet the approval of the Commissioners for him to do so.

Judge Chipman, of the United States Circuit Court, has granted the motion to quash the indictments against Barney Fabian and Chauncey, charged with uttering forged Custom House bonds. He was satisfied the Court had no power to try the case.

The *Express* says: A movement is being initiated among the O'Mahony Fenians to solicit the interference of Secretary Seward in behalf of the Irish-American citizens who were found guilty in Ireland of being Fenians. In America, the Fenian leaders are said to have a list of thirty British spies, who constantly watch their movements.

From New Orleans—Election Bill Vetoed—Depredations of Liberals on the Rio Grande—Markets.

NEW ORLEANS, Feb. 6.—The Governor vetoed the bill for the election of parochial and municipal officers on the second Monday of March. The bill will pass over the veto. Somewhat of a feud exists in New Orleans between the civil and military authorities, and it is understood the matter has been referred to Washington. It is all about the conduct of the Mayor of the city. Public opinion sides with Gen. Canby, whose conduct meets with general approval.

A Brownsville letter says Escabado has gone into the interior with most of his force, and the Liberal army, with the exception of a few roaming bands, are committing all sorts of depredations on both sides of the river.

The government will make a grand mistake by mustering out all troops, as the people depend entirely upon the soldiers for protection and assistance.

Secretary Chandler and Judge Waterson left New Orleans this evening via river for Washington.

Extradition of a Canadian Prisoner—Columbia College.

NEW YORK, Feb. 6.—An order was yesterday received from Washington for the extradition of George Gustoff, who was held in this city on a charge of administering poison to one McKennon, in Toronto, Canada. One of the U. S. Deputy Marshals will escort the prisoner and deliver him over to the Canadian authorities.

An annual intermediate examination of students of Columbia College commenced yesterday and will continue till Friday.

Fenian Excitement in Canada Abated—Express Office Robbed.

NEW YORK, Feb. 6.—The *Herald's* Toronto special, dated February 5, says the Fenian excitement is somewhat abated since it appears that Sweeney is not in Canada. Precautions are not neglected and the police and military are on the alert. The excitement and alarm is still wide spread in the towns along the St. Lawrence river.

Vicker's Express office was robbed last night of $1,200. The Provincial Telegraph Office was also entered by robbers.

Large Paper Mill Destroyed.

CHICAGO, Feb. 6.—The St. Charles paper mill, at St. Charles, Illinois, the largest establishment of the kind in the West, was burned on Sunday night. Loss $110,000; insured for $30,000.

XXXIXth CONGRESS—FIRST SESSION.

WASHINGTON, February 6, 1866.

SENATE.

Mr. Sherman presented a petition of the citizens of Ohio, asking for a reduction of the tax on agricultural implements. Referred to Committee on Finance.

Mr. Chandler, of Michigan, from the Committee on Commerce, asked to be discharged from further consideration of the proposition to appropriate one hundred thousand dollars to build a Post Office and Custom House at Topeka, Kansas, and it was so ordered.

Mr. Willey, of Western Virginia, offered a resolution, which was adopted, instructing the Committee on Judiciary to inquire into the expediency of reporting a bill to provide for the payment of loyal citizens of the lately rebellious States for quartermaster's stores taken from them and used by the army of the United States, so as to place such claims upon an equality with those of citizens of the loyal States.

The morning hour having expired, the joint resolution to amend the constitution in relation to representation, was called up.

Mr. Doolittle, of Wisconsin, offered the following, which he said he intended as a substitute for the House proposition: Strike out all after the enacting clause and insert the following: After the census to be taken in the year 1870, and each succeeding census, representatives shall be apportioned among the several States which may be included within this Union, according to the number in each State, of male electors over twenty-one years of age qualified by laws thereof to choose members of the most numerous branch of its legislature, and direct taxes shall be apportioned among the several States according to the value of real and personal taxable property situated in each State not belonging to the State or to the United States.

Mr. Sumner, from the Committee on Foreign Relations, reported a bill to authorize the appointment of a diplomatic representative to the Republic of Dominica.

Mr. Sumner resumed the floor, in continuation of his lengthy speech commenced yesterday.

After Mr. Sumner had concluded his speech, the Senate went into executive session, and adjourned.

HOUSE.

The Speaker laid before the House the report from the United States Revenue Commissioners upon the property in the funds, the financial system, &c., a sinking fund and taxation in general, by Samuel S. Hayes. It was referred the Committee on Ways and Means.

Mr. Darling, of New York, presented a petition of the manufacturers of willow ware, for a change in the manner of imposing the tax on articles manufactured by them, which was referred to the Committee on Ways and Means.

Mr. Farnsworth, of Illinois, introduced a bill providing for the publishing of notices of mail lettings, which was referred to the Committee on the Postoffices and Post Roads.

Mr. Rice, of Mass., from the Committee on Naval Affairs, reported back the Senate resolution tendering the thanks of Congress to Vice Admiral Farragut, and the officers and men under him for gallantry and good conduct before Mobile, on the 3d of August, 1864.

The House resumed the consideration of the Senate bill to enlarge the powers of the Freedmen's Bureau.

The House first voted on the amendment of Mr. Smith, to the original bill, namely, that none of the provisions of this act shall extend to, or be in force in the State of Kentucky. This was rejected by a vote of 34 against 131.

The House next considered the substitute offered by Mr. Stevens. Nearly all the original provisions of the bill, are retained in the substitute. The principal modifications made, are as follows:

In the fourth section, authorizing the President to receive from sale or from settlement under the pre-emption laws, and to set apart for the use of freedmen and loyal refugees, male or female, the unoccupied public lands in Florida, Mississippi, Alabama, Louisiana and Arkansas, and from the confiscated lands of the enemy, not exceeding in all three millions of acres, of good land, to be allotted and assigned in parcels not exceeding forty acres each, to loyal refugees and freedmen; and in the fifth section, providing that the occupants of the lands, under Major General Sherman's Special Field Order, dated January, 1865, are confirmed in their possession, and that no person shall be disturbed in, or ousted from said possession unless a settlement shall be made with said occupant by the former owner, satisfactory to the Commissioner of the Freedmen's Bureau provided that whenever the owners of lands occupied under Major General Sherman's field order shall make application for the restoration of the lands, the Commissioner is authorized upon the agreement, and with the consent of the occupants, to procure other lands for them by rent, or purchase not exceeding forty acres for each occupant, or to set apart for them out of the public lands assigned for that purpose, forty acres each, upon the terms and conditions set forth in the fourth section.

The substitute of Mr. Stevens was rejected by a vote of 37, against 126.

The House then voted on the substitute, reported from the Committee on Freedmen's Affairs, for the Senate bill. It is nearly the same as the Senate bill, with the following exceptions: The substitute provides that the act shall extend to refugees and freedmen in all parts of the United States, and the President may divide the section of country within which the privilege of the writ of habeas corpus was suspended on the 1st day of February, 1866. It also makes a reduction of the salaries of officers and privates, that no person shall be deemed destitute, suffering or dependent upon the government for support, within the meaning of this act, who, being able to find employment, could by proper industry and exertion avoid such destitution, suffering or dependency.

It further provides that whenever the former owners of lands occupied under Major General Sherman's field order shall make application for the restoration of the lands, the Commissioner is authorized, upon the agreement, and with the written consent of the occupants, to procure other lands for them by rent or purchase, not exceeding forty acres for each occupant, or to set apart for them out of the public lands assigned for that purpose in section 4th of the bill, forty acres each, upon the terms and conditions therein named.

The commissioner is required to procure by grant or purchase such lands within the districts named as may be required for refugees and freedmen dependant on the Government for support, and shall provide, or cause to be erected, suitable buildings for asylums and schools. The above are the most material modifications.

The substitute for the Senate bill was passed—Yeas 137, nays 33.

The following are the yeas and nays on the passage of the Freedmen's Bureau Bill:

YEAS—Messrs. Allen, Allison, Ames, Anderson, Ashley, of Nevada, Ashley, of Ohio, Baker, Baldwin, Banks, Barker, Baxter, Beeman, Benjamin, Bidwell, Bingham, Blaine, Blow, Boutwell, Brandegee, Bromwell, Broomal, Bundy, Clark, of Ohio, Clark, of Kansas, Cobb, Conkling, Cook, Cullom, Darling, Davis, Dawes, Defrees, Delano, Deming, Dixon, Donnelly, Driggs, Durmont, Eckley, Eggleson, Elliott, Farnsworth, Farquhar, Ferry, Garfield, Grinnell, Griswold, Hale, Harding, of Illinois, Hart, Hayes, Henderson, Higley, Hill, Holmes, Hooper, Hotchkiss, Hubbard, of Iowa, Hubbard, of West Virginia, Hubbard, of New York, Hubbard, of Conn., Hubbell, James Humphrey, Ingersoll, Jenks, Julian, Kasson, Kelly, Kelso, Ketchum, King, Kendall, Laflin, Latham, Lawrence, Loan, Longyear, Lynch, Marston, Marion, McClung, McIndoe, McKee, McRuer, Mercer, Miller, Moorhead, Morrill, Morris, Moulton, Meyers, Merrell, O'Neil, Orth, Paine, Patterson, Perham, Phelps, Pike, Plants, Pomeroy, Price, Randall, of Kentucky, Raymond, Rice, of Maine, Rollins, Sawyer, Schenck, Schofield, Shellabarger, Sloan, Smith, Spalding, Starr, Strouse, Stillwell, Thayer, Francis Thomas, John L. Thomas, Thornbridge, Upson, Van Aeram, Van Horn, N. Y., Van Horn of Missouri, Ward, Warner, Washburne, of Illinois, Washburne, of Massachusetts, Walker, Wentworth, Whaley, William, Wilson, of Iowa, Wilson, of Pennsylvania, Windom, Woodbridge. 137.

NAYS—Messrs Boyer, Brooks, Chanler, Davison, Eldridge, Finch, Glosbrenner, Grinder, Harding, of Kentucky, Harris, Hogan, Hubbell, New York, Jas. M. Humphrey, Kerr, Leblond, Marshall, McCullough, Niblack, Nicholson, Noell, Randall, of Pennsylvania, Ritter, Rogers, Rousseau, Shanklin, Sitgraves, Strouse, Tabor, Taylor, Thornton, Trimble, Wright—33.

Mr. Rousseau rising to a privilege question read from the remarks of Mr. Grinnell, of Iowa, made yesterday, as follows:

"History repeats itself. I cannot say whether the gentleman, Mr. Rousseau, was four years in the war on the Union side, or four years on the other side. But I say he degraded himself and uttered a sentiment unworthy an American officer, when he said that he would do such an act on the complaint of a negro against him."

Only this much was read, but the preceding remark to which this referred was as follows: The Hon. gentleman from Kentucky, Mr. Rousseau, declared on Saturday, as I caught his language, that if he were arrested on the complaint of a negro and brought before one of the agents of this Bureau, when he became free he would shoot him.

Mr. Rousseau said: I pronounce the assertion that I have degraded myself as a false, foul slander, and unworthy to be uttered by any gentleman on this floor.

Mr. Grinnell—"I referred to the gentleman's remarks as I understood them, the gentleman having withheld them from the Globe. I had no desire to do injustice. I criticized the gentleman's language, and I stand by that criticism. If I did not correctly represent what he said, I beg pardon."

Mr. Rousseau—"My object was not to get an apology, but to say what I have said."

Mr. Grinnell: "The gentleman's language is no offence. I stand on my rights as a member of this House, and discharge my duties as I understand they should be discharged. When I criticised the language of the gentleman from Kentucky, I did so from a sense of duty, and I thought that language unworthy of an American officer and of his own State."

Mr Rousseau—I understand that the gentleman is a preacher of the Gospel, and yet he lacks "charity to all men." I am a new member of this House, and have endeavored to behave with the utmost courtesy. It does come with exceedingly bad grace from the gentleman, who slept in safety, whilst others were fighting on the battle fields, to make such a remark concerning me. He could not exercise the most ordinary charity, but when a gentleman had gone out of his seat, he got up to insult him, contrary to the rules of the House.

Mr. Grinnell—I have only to say, the gentleman has paraded his profession of arms before this House: I have not paraded mine. The gentleman says I am a clergyman: I have to answer, I was a man before I was a minister. I claim to be a man and an American citizen. I am not ashamed of my origin and profession, and I stand by my constituents, my principles and my country.

The House proceeded to the consideration of the bill giving the assent of Congress to the transfer of the counties of Berkley and Jefferson from Virginia to West Virginia.

Mr. Rogers, of New Jersey, opposed the bill denying the power of Congress in the premises, and contending that the assent of the Legislature of Virginia was necessary. The subject should be referred to the people of those counties in order that they may by vote, determine whether they were willing to be thus transferred.

Mr. Lawrence, of Ohio, said that the consent of the Legislature of Virginia was given, and that a vote was taken by the people of Jefferson and Berkley counties, which resulted in the transfer of these counties to West Virginia. Virginia could not now, by an act passed by her so-called Legislature, withdraw that assent. The act of Congress was necessary to complete the arrangement.

Mr. Stevens humorously reviewed the action of the so-called Virginia Legislature, under Gov. Pierpont, and said the farce was too small to be acted upon the theatre of the great nation. He would vote for the bill, believing they could transfer any portion of conquered territory.

Mr. Bigham repudiated the dogma, come from what quarter it might, that West Virginia was conquered territory. The loyal men there had the right to constitute a State which they had done.

The bill was passed. Yeas, 113; nays, 24.

The House took a recess till 7:30 P. M. for speech making.

Evening Session.—Mr. Scofield, of Pennsylvania, made a few remarks concerning the harbor of Erie. Nobody else desiring to make a speech the House adjourned.

FROM WASHINGTON.

McCulloch and the Revenue Report.

RULES FOR THE REDEMPTION OF CURRENCY.

WASHINGTON, Feb. 6.—Secretary McCulloch, in sending in the report of S. S. Hays, of the Revenue Commission upon the property in public funds and income therefrom, the financial system, the creation of a sinking fund, and taxation in general, says in an accompanying letter that Mr. Hays' views are ably and clearly presented, though he cannot concur in his conclusions, but it is due to that gentleman that his report should be printed and carefully considered by Congress. It is known that many persons render their receipts to the officers of Internal Revenue on a gold basis, but pay their taxes on their amounts in paper, and that while the bonds of railroad companies, held by citizens in this country are taxed, the foreign holders of such securities are exempt.

Mr. Morrell, chairman of the Ways and Means Committee, has prepared a bill to remedy these defects, and it will probably be passed to-morrow.

It is believed the Committee on Elections have agreed to report in favor of Col. Washburne, the contestant for the seat occupied by Mr. Voorhees of Indiana.

The Pacific Railroad Directors and Commissioners, who have recently been holding a convention in the city, left Washington for New York to-day, where they will again convene for practical business, the meeting here being only for the purpose of obtaining and comparing views with officers of roads connecting with the Union Pacific.

The following nominations were confirmed by the Senate to-day, in executive session: S. Garfield, of Washington Territory, to be Surveyor General for said Territory; George N. Black, of Illinois, to be Receiver of Land for the District of Springfield, Ill.; John Wilson, of Peoria, Ill., to be Consul at Antwerp; Nath. Usher, of Indiana, to be District Attorney for the Northern District of Florida; Gerry Whitney Hazelton, of Columbus, Ohio, to be Collector of Internal Revenue for the Second Collection District of Wisconsin; Fitz Henry Warren, of Iowa, to be Minister resident at Guatemala.

Official notification has been given that all orders heretofore issued, requiring that transportation shall be furnished to furloughed soldiers, are revoked.

The United States Consul at Rotterdam, in a dispatch to the State Department, dated January 18th, says: The cattle plague is still on the increase in Holland, and has extended to the province of North Brabant.

This morning in the Criminal Court District Attorney Carrington said he had been requested by one of the counsel for L. C. Baker to ask the court to postpone the sentence until other indictments against him are disposed of. Judge Fisher replied that he thought that was the better course, as it will probably be towards the last of the term before the other indictments are tried.

The rules adopted for the redemption of fractional currency and other United States notes, which, from whatever cause, have become unfit for circulation, contemplate and require the co-operation of all national banks that are designated as depositories, in the work of redemption, except such notes as by the rules of the Department are designated and described as mutilated, and by the term "mutilated" is meant notes not worth their full face value.

Some of these banks do not seem to have understood or have been unwilling to accept this duty. Holders of money which ought to be retired from circulation, should have more ample means for the redemption or exchange of defaced United States notes and fractional currency, and such notes as by said rules are defined as mutilated, and subject, therefore, to discount at the Treasury.

Additional rules and regulations have been adopted by the Treasury Department, in which among other things, it is provided that whenever a holder of any United States currency shall present to an Assistant Treasurer of the United States, United States Depository, or a National Bank which is a designated depository of the United States, notes which in aggregate shall be of the nominal value of fifty dollars or over, which notes shall have been carefully labelled and then put up in one parcel, in conformity with the rules approved by the Secretary of the Treasury, April 15, 1865, for the redemption of such notes, it shall be the duty of such officer or banks to receive such parcel of notes and give to the owner thereof either the value of the same in money or a receipt conditioned for the payment of the proceeds of such parcel when the returns therefor shall have been received from the Treasury of the United States.

Such parcel must be securely done up with the owners name, the amount claimed, and the date plainly written on them. No national bank notes, whether mutilated or not, are redeemable by the Treasurer, unless they are notes of banks in circulation. Such notes are redeemable only, by the banks which issued them.

HON. J. K. MOORHEAD.

We learn that in various parts of the State representations are made to the effect that the delegates to the Union State Convention from Allegheny county are not, in reality, in favor of the nomination of this gentleman for Governor. All such reports are without foundation in fact. Our County Convention was absolutely in the hands of Mr. MOORHEAD's friends, and the delegates were selected with special reference to securing his nomination. To the attainment of this object they are committed no less by their own personal feelings, than by a sense of duty to the Convention by which they were appointed.

JAMES CHATHAM is the Representative delegate, and W. C. KRESS the Senatorial delegate, from Clinton county, and instructed to support MR. MOORHEAD.

We further hear that the four delegates from Union, Snyder, and Lycoming counties are for him.

The Philadelphia *Bulletin* in a well written article, strongly urges his nomination.

TERGIVERSATION OF THE COMMERCIAL.

Having performed a disagreeable but urgent duty in portraying the course of our contemporary on the subject of the admission to seats in the two Houses of Congress of the gentlemen chosen to represent the Southern States and people, we are constrained to proceed further and expose its inconsistency and vacillation in respect to negro suffrage. Prefatorially, however, we may remark that we hold it not to be an evidence of weakness or imbecility for a private person or a public journalist to revise, modify or repudiate opinions he once held. Men of sense, as the result of fuller investigation and knowledge, not unfrequently find cause to shift their positions, even on the most important topics. But, then, they frankly avow the alteration in their views, and are ready on all proper occasions to explain under the pressure of what considerations the revision was made. They do not boast that they saw the whole case in all its aspects, at the beginning, and instinctively adopted a judgment that the maturest reflection could not impair, nor the accumulation of illustrative facts amend. Nor do they boast that all intelligent persons, in Congress, or connected with the press, or in private walks, are necessarily following in paths illuminated by their earlier and transcendent knowledge. A man of real sense and acquirements is apt to be modest in regard to himself and considerate of others. It is commonly those who have the least claim to extraordinary discrimination that vaunt their superiority. Enough of this. Let us proceed.

January 17th, the *Commercial* said:

"Let us have consistency; not only that, but justice. Let us have suffrage—*intelligent suffrage, we may say—not for white men alone, but for colored men;* not merely for intelligent colored men of the South, but every where—a universal system of suffrage, based not on color, but on some rule that will show that men approaching the ballot-box possess a certain degree of fitness. At any rate, let us not wholly overlook the colored men of the North."

Here our contemporary takes ground for an intellectual basis of suffrage, applicable to blacks and whites alike. It would admit to suffrage all the blacks who come up to its standard—though it does not define what its standard is—and would shut out all whites who fall below.

January 22d, it said:

"The zeal Mr. KELLY has shown in carrying through his bill, will be long quoted in his favor. Has he not the influence to produce a movement in the Legislature to enfranchise the intelligent, tax-paying, returned soldier colored population of Pennsylvania? We count confidently on somebody moving in our Legislature. Let us back up our representatives with *prompt* action. The *Union majority in Congress have marked out the way*—let us march boldly in it."

It is somewhat difficult to tell exactly what position is here assumed. Our neighbor seems to have been mastered by an enthusiasm so powerful that it rushed him onward without opportunity for thought and judgment. First he applauds Mr. KELLY and his bill. The principle of that bill is adult male suffrage, qualified only by the requirement of citizenship. So far this bill is in conflict with the ideas propounded by our contemporary only five days before.

Then Mr. KELLY is urged to have a movement made in the Legislature to grant negro suffrage in Pennsylvania. Of course, if that gentleman were to inspire a movement he would inspire it in accordance with his own ideas, and not in conformity to ideas hostile to his.

On the 17th the *Commercial* was in favor of black suffrage on the same terms as white suffrage, and both qualified by intelligence. On the 22d, it was no longer, apparently, for equal suffrage; but wanted to condition the voting of the blacks, not only on intelligence, but on tax-paying and military service. Perhaps, however, its idea was to equalize by subjecting the whites to the same qualifications.

But our neighbor seemed not to know, what every intelligent journalist and citizen does know, that the right to vote in Pennsylvania is regulated by the Constitution, and that by the terms of that instrument it cannot be amended oftener than once in five years. It was amended in August, 1864. If, therefore, the *Commercial* should have a "prompt" movement made in the Legislature, it would be ruled out of order.

In closing our neighbor becomes enraptured with the Congressional scheme. It forgets all it said, half a dozen lines back, about intelligence, and tax-paying, and military service; and remembers only that Congress "marked out the way—let us march boldly in it."

On the whole we regard this extract as a decided curiosity in political literature. If the *Commercial*, upon re-perusing it, can give an intelligible account of what it actually said, or even meant to say, we shall be amused.

January 25th, the *Commercial* took a fresh departure. It said:

"We would however, prefer incorporating into the [Federal] Constitution, an article whereby *all* men, white and black, North and South, shall be permitted to vote—and AT ONCE—leaving nothing to the caprice of any *State*. * * * Why not close the matter up at once and forever."

Well: that is plain—"ALL MEN." That discards intelligence, tax-paying, military service, and citizenship, as conditions for voting. We are not sure but it was the intention to give minor males the right to vote; for, it will be seen in the sequel, that our contemporary professes profound ignorance of what "manhood" means when used to qualify or limit "suffrage." We [illegible] further, and confess it [illegible] meaning of manhood in [illegible] any subject whatever.

[illegible] The *Commercial*, as the re[illegible] reflection, has given up [illegible] amending the State Constitution, and taken to the larger job of amending the Federal Constitution; and that it wants the alteration made "at once."

January 27th, another change came over the spirit of its thoughts, and it broke out:

"While we have not mounted the question of negro suffrage as a hobby, to ride over and trample down everything else, the important matter has not been, by any means, ignored in the *Commercial*. * * Our position was early taken, and we have every reason to believe that it has been, and is so well understood, that we need not now formally reiterate it. But we cannot help noticing in the public sentiment, * * a tendency to concentrate on the ground *we have occupied from the beginning*. * * CONGRESS ITSELF, instead of blaming the President for not conferring the boon of suffrage on the lately emancipated slaves, resorts to the slow measure of a Constitutional Amendment to secure it for them, and some of the journals that have been most ardent and headlong for a rapid movement, surprise us with proposed conditions and cautions, *quite in accord with our own*. * * * * Our neighbor, the *Gazette*, appears to have been overtaken with *a similar visitation of prudence and wisdom*. It bespeaks caution and delay. * * * * It gives up its own darling, *oddly enough named* MANHOOD SUFFRAGE, as utterly beyond hope. Is it not refreshing to hear the *Gazette* expressing itself on this wise? * * * AS WE HAVE OFTEN SAID *there is no need of haste*."

This would be ludicrous, were it not positively disgusting. On the 25th, you insisted that the thing should be done "at once." On the 27th you declare "there is no need of haste." How innocent, too, the naive assertion that you "have not made a hobby of negro suffrage!" You have pegged away at it almost every day, and in all possible shapes; have been at the top, the bottom, and all four sides; and now that your wind is entirely exhausted, you sit down and complacently magnify your moderation.

Just here let us drop the remark that this is the manner in which the *Commercial* handles all subjects. If it offends to-day by taking one side, it makes amends to-morrow by taking the other; and so claims that all sorts of people ought to be satisfied.

Now let us see what the GAZETTE did say that so unexpectedly charmed the *Commercial* into admiration of its "prudence and wisdom." Here are the words:

"No doubt an attempt will be made to drag the general question of Negro Suffrage into discussion. Such attempt, it seems to us, will be impertinent. If an amendment of the Constitution of Pennsylvania, touching that point, was desired, it cannot, by the terms of the Constitution itself, be initiated for several years to come. No scheme has yet been brought forward in Congress to confer the right of suffrage on the blacks in the States lately in rebellion. An amendment, has, indeed, been proposed to the Federal Constitution which, if ratified, will make it for the interest of the Southern States to adopt manhood suffrage. Nothing further is intended, or, at all events likely to succeed.

"That the Suffrage Question will ultimately come up for review in the different States is more than probable. Such review may be postponed, but it cannot be permanently avoided. Among all nations in which the popular element is respected, there is a steady drift of sentiment towards manhood or universal suffrage. Even in Imperial France, to the full extent in which the people are acknowledge as factors in the government, every male citizen, no matter what his color, is allowed to vote. In the United States the process of investiture has been obstructed, and even turned backward; but the prevailing current of the civilized world must and will ultimately be felt and followed.

"When the suffrage question comes up in Pennsylvania, we judge from what we see and hear, that the proposition will be for a conditioned basis, and that an educational one. Of course there are persons in each of the political parties, who, animated by very different motives, would prefer a proposition for manhood voting. All such are likely to be disappointed.

"On so broad and consequential a matter, it is worth while for every citizen to reflect fully before deciding precisely what policy to favor. It is the wisest to look at the suffrage question, not from one side, but from all sides; not as touching one race, but all races. There need be no hurry or precipitation in defining positions. It is more needful to consider so fully before reaching a conclusion, as to make the decision arrived at thoroughly intelligent."

Any man of common sense and common honesty, upon reading these paragraphs, will see they contain no abatements or qualifications of views previously expressed by us on the suffrage question; that they left us commited not only to follow, but to help "the steady drift of sentiment towards manhood or universal suffrage;" that our peculiar "prudence and wisdom" consisted in not being inclined to make a movement for extending suffrage in Pennsylvania until we had a legal right to make it; and in that we virtually counselled all citizens not to imitate the *Commercial* in starting a race before knowing in which direction it was best to run, "but to reflect fully before deciding precisely what policy to favor."

Of course the *Commercial* did not understand anything of this. In its confessed ignorance of the established meaning of words and phrases, it supposed we had beaten a retreat, and deemed it prudent to follow suit. It would not do for so brilliant, profound and versatile a journalist to own outright that he was following so ignoble a leadership, so he invented a story, and made it so acceptable to his own vanity that he deceived himself with it, that he was leading us, and many many other journals, and, in addition, Congress, and the masses of the population in the loyal States. It is sad for a man in his thoughts to indulge in such miserable hallucinations; but when he becomes so weak as to parade them before the public, fancying he can pass them off for verities, it is time a commission of lunacy was taken out in his behalf, and he consigned under it to the compassionate treatment of doctors skilled in mental diseases.

STEAMBOAT EXPLOSIONS.

The recent numerous fearful accidents on the Western waters, involving in every instance a loss of a hundred or more lives, render it imperative that much more care should be taken in steamboat inspections than seems to have been used hitherto, at least in that part of the country.

The blame, we see, is cast upon tubular boilers. Many Western boats have lately adopted boilers constructed like the boilers of locomotives, the reason given being that they generate steam more rapidly than the old boilers; and the idea is so prevalent that the recent calamities are owing to this fact, that the insurance companies of some of the Western cities have resolved not to take insurance risks on boats using them.

We know not how correct this assumption may be; but we incline to the belief that bad material in the boilers and careless engineering have also had something to do with it. Whatever the cause may be, it is high time that something were done to ascertain it and prevent the recurrence of such fearful catastrophes.

It is worthy of remark that the great bulk of steamboat explosions happen on the lower Ohio and Mississippi rivers—mainly on the latter. Very few explosions happen on the upper Ohio, and they are especially rare on that part of the river between Cincinnati and Pittsburgh. A very few have occurred there within the last generation; but so few that they scarcely affect the sum total of such accidents in the country at large. Why is this? Is it not because more care and caution is exercised by the boatmen on this end of the river, and that recklessness in steamboating is there the exception and not the rule?

THE Marion (Ga.) *Telegraph* urges the President to summon the Southern members of Congress to Washington, and if Congress will not admit them, "*a regiment of United States troops should be sent to put them in their places.*" If the Southern people think that is the way to do it *let them try it.*

MR. ROUSSEAU, of Kentucky, said lately in the House that he was not a Republican, but a Unionist. If he had said that he was a Democrat he would have hit the nail exactly on the head. His name is invariably found, in the yeas and nays, along with the other copperheads of that body.

THE Williamsport *Bulletin* declares for Mr. J. K. MOORHEAD for Governor.

VERY TRUE.

Mr. MCKEE, of Kentucky, the only man from that State in Congress who seems to have pluck enough to stand up for the right, gave, in a few words, the other day, the true explanation of the opposition to every measure that has been proposed, so far, to secure the blessings of freedom to the freedmen. Speaking of the bill to enlarge the powers of the Freedmen's Bureau, he said:

"Those who opposed the bill are those who opposed every measure to crush treason. They proposed to continue tyranny and oppression and wrong while the nation desired to protect all people alike. When the President issued his proclamation calling for troops, it was denounced as a usurpation."

The men who now oppose the proposed Constitutional amendment, the Freedmen's Bureau bill and kindred measures, use the same arguments, to-day, that they used in behalf of treason throughout the war. They opposed coercion of the States, the call for troops, the emancipation proclamation, the enlistment of negroes, the suspension of the habeas corpus, and every other measure needed to make the war successful, because they were all in their view "unconstitutional," and involved a usurpation of authority; and they oppose every measure needed to give effect to the emancipation wrought by the war for the same reasons. To be sure they take upon themselves, now, to say that they are the President's friends, and that they sustain what they call his policy from patriotic motives; but every one can see that they are the same venomous opponents of all that is right and good that they have been throughout the war, and that their opposition, to-day, is but a continuance of the opposition that began with the war—that it is actuated by the same spirit and springs from the same motives.

THE WOOL GROWERS' CONVENTION.

The County Commissioners have kindly granted the use of the Court House to the Wool Growers' Convention which meets on Thursday, and the Convention will accordingly be held there.

The indications are that this Convention will be largely attended, and that the wool-growers of this end of the State will be able to form a compact and influential organization for the protection of their interests.

We suggest to the manufacturers of this city whether it would not be good policy in them to make common cause with the wool-growers in this movement for protection, by giving their countenance and aid to this Convention? The wool-growers have but a common interest with them, and the two should work in harmony; and harmony can be attained only by conference and a fair understanding between all parties.

THE NEW PARTY.

A Washington special to the New York *World* says:

"A meeting of prominent politicians will be held in this city some time during the coming week, for the purpose of inaugurating the political party of the future. Loyal Southern men who have been dancing attendance for admission to the halls of Congress under regular elections, loyalists from the border States who have seats by the suffrage of the old Union party, and conservative republicans who disagree with Thad. Stevens' interpretation of republicanism, are prominent in this movement for an organization of the friends of the President. The name "National Union Party" will probably be adopted. Delegations of active politicians from all the Northern States will be present."

Here is the chance some of the conservatives of Pittsburgh have been figuring for. Now let them hoist their true colors, and sail in.

SPRING ELECTIONS.—State election will be held in New Hampshire on the second Tuesday in March; in Connecticut on the second Monday in April; and in Rhode Island on the first Wednesday in April, of the present year.

THE lower House of the West Virginia Legislature has selected BUCKHANNAN as the future Capital of that State.

GENERAL NEWS.

OPERATIONS BY THE LOUISIANA STATE MILITIA.—Letters from officers of the Freedmen's Bureau in Louisiana show that the militia in that State are organized into patrols for the purpose of scouting the country and forcing the freedmen to remain upon the plantations. Near Shreveport they are enforcing some of the most odious features of the old slave system. In one instance they gave ten, in another thirty, and in another three hundred lashes. Three freedmen's school-houses were destroyed by a mob in the parish of St. Mary, and in Thibodeaux. In the parish of Lafourche a lady employed in teaching a school of adult freedmen was driven from her work by brickbats used by the mob. The civil authorities are not protecting the freedmen, and the Freedmen's Bureau is the only source of protection.

MURDERED.—A woman was shot on South street, to-day, as we go to press, and instantly killed, by a roving peddler. Officers are in pursuit of the murderer. The woman's name is Purviance. She was from Moorfield, Harrison county. The bullet passed through her right breast, and her death is believed to have been the result of the accidental discharge of the pistol. The peddler fled, leaving his pack behind.—*Steubenville Herald.*

THE total number of the graduates of West Point, who were in the regular army at the commencement of the war was eight hundred and twenty. Of this number one hundred and ninety-seven resigned and joined the south, leaving six hundred and twenty-one loyal graduates who remained in arms for the Union, of which number no less than one hundred and thirty-eight, or nearly as many as those who resigned, were natives of the southern States.

THE Rochester *Union* learns that a leading grain, produce and apple dealer in Ontario county suddenly closed business recently at Canandaigua, and left for parts unknown. His liabilities are variously reported at from $50,000 to $100,000. Since his departure bank paper to the amount of $14,000 has turned up, bearing the name of the father-in-law of the party, which the latter asserts is a forgery.

MAN SHOT AT NEWBURG.—A man was found in an insensible condition, at the crossing of the Pittsburgh and Mahoning Railroads, in the vicinity of Newburg, on Sunday afternoon. He was taken to the town where medical attention was rendered and he was found to be rendered helpless from the effects of a gun shot wound. He is about thirty-five years of age, sandy complexion, and supposed to be an Irishman.

LARGE discoveries of petroleum are being made in the south part of Oxford county, Canada, lying at and near the village of Tilsonburg. These discoveries are on Clear Creek, Big Otter and Little Otter Creeks. Tilsonburg is fifteen miles south of Ingersoll, and is reached by a most excellent macadamized road. Several wells have already been commenced by parties from Pennsylvania, Rochester, Buffalo, and Bangor, Me.

A LETTER from Mr. Reed, of New Orleans, to an officer of the Treasury Department, says that in some of the parishes the freedmen are fleeing for their lives; that they refuse to work for their former owners, but are seeking Northern men, for whom they are desirous to work on any terms, and that when employed by such men they work faithfully and industriously. They say that their old masters oppress them the same as formerly.

THE case of Ishmael Day of Maryland, who shot a man for trying to haul down the United States flag, was the only one among forty, decided upon favorably by the House Committee on Claims last week, in a meeting at which demands for private losses sustained by loyal citizens during the war were submitted.

THE Denver *News* of the 23d ult., says Mr. M. M. Cassaday, the manager of the oil well near Canon City, arrived from there the previous evening. He informs us that he has three loads—about 700 gallons of refined oil on the road, which is the first oil from Colorado wells. His refining works are working nicely, and the well is yielding even better than at first. They pump from twenty-five to thirty barrels daily.

SOME of the leading operators in the oil region of Pennsylvania, are considering favorably the expediency of using crude Petroleum as fuel for running their engines; thus avoiding the perils of conflagration from sparks, which recently proved so destructive at Benninghoff Run. Petroleum, properly used, throws off neither sparks nor smoke; while the cost of adapting an ordinary steam boiler to its consumption is but trifling.

A NEW YORK letter writer says that not less than twenty of the New England women who were seduced from their homes by the emigration scheme of Mercer, and then left behind by him, have been driven by poverty to a life of shame, and are now inmates of New York brothels.

THE Lynchburg *News* states that more than four millions of dollars capital, owned by citizens of Lynchburg, have been invested out of Virginia, in consequence of the usury laws. The owners could not afford to lend money at six per cent.

THE Richmond *Inquirer* states that on Tuesday eight citizens of Madison county were arrested and brought to that city, to appear before a military commission to answer the charge of alleged mistreatment of freedmen.

THE New York *Observer* asserts, on the authority of a Southern correspondent, that the "piety of the South was opposed to secession, but the clergy were generally in favor of it." Is not that rather hard on the clergy?

DAN. MOSS, a rebel scout during the late war, was killed a few days since above Winchester, while attempting to take up a horse which he claimed to be branded, and the property of the United States.

THE Eufaula (Alabama) *News* says that several negroes have been shot in that vicinity by unknown parties since the Yankees left, and wisely declares that such baseness and meanness ought not to be tolerated.

A Menace to Union Men of Kentucky.

It is reported from Frankfort, Kentucky, that the officers now in the State who held positions in the rebel army, and whom the Legislature has kindly admitted to full participation in political affairs, [illegible] propose to hold a convention in that city to select candidates for the offices to be filled at the election in August next. They have been greatly encouraged by the sympathy manifested for them by the Legislature, and would unquestionably appear at the convention in confederate grey, if they did not have some apprehension that the military might interfere with their arrangements. It is probably in view of this convention and the prospect that the State government will presently fall into the hands of the allies of Buckner and Breckinridge, that the Frankfort *Yeoman*, the revived organ of secession, holds the following menacing language toward the staunch Union men of Kentucky:

"Those who brought our people under the rule of an iron despotism and rejoiced at our prostration, and fattened upon our spoliation, are realizing a reaction, and there are swift witnesses to testify against them. Men, bloated with consequence but a few months ago, have shrunk to 'a lean and slippered pantaloon,' and, if an inexorable justice did not require their punishment, our compassion would almost bury a remembrance of our wrongs. But for fear some adverse providence might at some future time place us at the mercy of their like again, *it is well to make such an example of them that a late posterity may have vivid remembrance of the warning.* The arm of justice has fallen upon some, but on none surely as yet. Those who invoked the intercession of armed men to become the representatives of an unwilling people, have been sent back to be dealt with by those whom they had outraged, and in every instance they have received a condemnation as emphatic as it was just. Men were never more marked for scorn, than those expelled from positions they had usurped, for never did men better deserve such infamy. They saw their neighbors, old men and feeble, bound and exposed to an August sun, for no other reason under Heaven than for wishing to prevent themselves from being misrepresented in their legislative halls. This they witnessed not only unmoved, but were consulting parties thereto and even instigators thereof. Yet the punishment so far has been only to submit them and their claims to the constituencies they proposed to represent *vi et armis;* and the constituencies, without the *vi et armis*, have set a seal of condemnation upon them which cannot be mistaken. *Sic semper Tyrannis*, though discredited by the assassin, is most appropriate for such as these. The arm they invoked is now shortened, that it can not save; *and when grand juries get upon their track, and the indignation of an outraged people shall awaken, they may well call upon the mountains to cover them.* They bowed the knees to Baal, and Baal hath forsaken them in their extremity."

This is rather loud talk for a newspaper whose editor and proprietor has hardly purged himself of treason or brushed the dust from the pantaloons in which he humbly solicited executive clemency. He will probably discover, when any attempt is made to get on the track of the Union men of Kentucky to persecute them for their honest efforts to rid the State of a vile brood of traitors, bushwhackers and cut-throats during the war, that "Baal" has not forsaken them, nor the arm been shortened that protected them in the past. If the *Yeoman* and its ex-confederates are not satisfied on this point, let them try it and see.

O Ho!

They are in hot water in Canada, despite the rigors of the climate and the season. The Fenian scare is off and on like the ague; but the Ministerial and Reciprocity broil keeps everything seething. Briefly: it is broadly charged that Mr. Geo. Brown resigned the Premiership rather than sanction or acquiesce in the exceptionable steps resolved on by his colleagues to secure at Washington the success of a new Reciprocity arrangement; and while his successor, the Honorable Ferguson Blair, was undergoing re-election to Parliament, he was "speered at" as follows:

DR. CLARKE—*Will you sanction the payment of any amount of money for purchasing the votes of members of Congress for reciprocity before such expenditure has been resolved upon by Parliament?*

MR. BLAIR—Certainly not.

DR. CLARKE—It has been rumored that the cause of Mr. Brown's disagreement with the Government was his objection to voting secret service money until the sanction of Parliament was first obtained.

MR. BLAIR—There is no foundation for the rumor whatever.

DR. CLARKE—Well, *there is no use in blinking the fact that there will be a large amount of money spent by the Commissioners.* I want to know if you will sanction its payment before the House of Assembly votes that it shall be paid?

MR. BLAIR—Of course, I shall not.

MR. JOHN MCRAE—Have you any objection to stating what terms have been proposed to the Government for a renewal of the treaty, and whether there is a probability of their being accepted?

MR. BLAIR—That is a thing I cannot speak of.

MR. MCRAE—Well, the secret is known to more than twenty people in this country, and *has been speculated upon in this market here by Mr. Howland's particular friends.*

The Toronto Globe, (whose editor and proprietor is Mr. Brown, the late Premier,) in publishing the above, says:

"Mr. Blair has no doubt correctly stated that the cause of Mr. Brown's resignation was his strong disapproval of the course taken by the Government in regard to the American Reciprocity Treaty," and significantly adds that "*enough must be gathered from Mr. Blair's remarks to see that giving publicity to the cause of variance, while the negotiations were pending, could only have done injury.*"

If the folks don't "smell woolen" in these glimpses of the Reciprocity business, they must have colds in their heads.—*New York Tribune.*

The Trichina in Detroit—Dangers of Eating Pork.

One case of the epidemic called Trichina, which has recently excited so much alarm in Berlin, Prussia, has appeared in this city and proved fatal. The victim of this disease was a young lady, a German, who was taken ill some time since, and called Dr. Herman Keifer to attend her. Dr. K. was at first unable to tell the precise nature of the disease, but finally became convinced that it was of the same nature as the Trichina, which has been known for some years in Germany, and which arises from the eating of diseased pork.

The *Trichina Spiralis* is a small microscopic worm or animalcule which was first observed by the distinguished anatomist, Richard Owen in 1835, and is found in the muscles and intestines of various animals, especially pigs and rabbits, in such enormous quantities that in a single ounce of pork 100,000 of these animalcules have been found. By partaking of the meat infected with them, they are transferred to the human body, causing intense suffering, followed, in many cases, by a painful death.

Dr. K. did his utmost to relieve the intense sufferings of his patient, but his efforts to save her life were unavailing, and she died about a week ago. After her death a post mortem examination was held, which has resulted in proving beyond a doubt that the disease was trichina. A small portion of flesh, about the size of a pin-head, was examined through the microscope, and found to contain large numbers of animalcule, wound round and imbedded in the fibres of the muscle, exactly similar in appearance to the *Trichina Spiralis*. This, we believe, is the only case of this disease that has ever been known in this country. Dr. Keifer states that these animalcule are not destroyed by smoking, or, as a general thing, by frying pork, but hard and long boiling is necessary to effectually destroy them.—*Detroit (Mich.) Tribune.*

MR. JAMES R. SPAULDING, one of the Editors of the *New York Times*, who had taken a trip to New Orleans for the benefit of his health, was, on his return, we regret to hear, struck with paralysis. Mr. Spaulding being unable to speak when removed from the vessel on Wednesday evening, was driven about to several hotels, the proprietors of which, not knowing him, refused to take him in. Mr. Spaulding's friends were then notified of his condition, and he was taken to the New York Hospital, where he now lies in a most critical condition. His family, who now reside in Poughkeepsie, were sent for, and are now in attendance upon him. Mr. Spaulding's health had been greatly impaired by excessive and protracted mental exertions, and it is feared that his present sickness will prove fatal.—*Commercial Advertiser.*

This statement contains several inaccuracies. Mr. Spalding was not "unable to speak" when he was removed from the Evening Star on her arrival from New Orleans. He gave the hackman orders to drive him to the Astor House. On being refused admission there, he ordered the coachman to drive to the Metropolitan Hotel. Subsequently he was taken to the Lafarge House, with no better success. As a last resort the hack drove up to the *Times* counting room, where a temporary couch was provided for the sufferer until medical aid could be procured. Mr. Spalding was ultimately taken to the New York Hospital the same night on which he arrived. We are happy to say that he has improved considerably.—*Times.*

There surely must be some mistake in these statements of the *Times*. New York is a Christian city, and its petted hotel keepers should not lightly be charged with conduct that would disgrace a Choctaw Indian or a South African Hottentot. It is incredible that an educated gentleman, sorely smitten with a disease not contagious or offensive, should be thrust back into a hack on a bitter winter's night from three of the principal hotels on Broadway, when all he needed was a few hours' shelter until his family could be sent for. The *Times* and other city journals recently had occasion to sternly condemn the Quarantine Commissioners for sending a poor fever-stricken emigrant to Ward's Island in an open boat, from the effects of which exposure he died. This case of Mr. Spalding is far worse, if correctly reported, and we do not see what excuse the hotel keepers can make for their want of common humanity.—*World.*

GENERAL NEWS.

THERE are two daily papers at Denver and two more in the mountain region. The section in which lumber is found in Colorado has twenty-five saw-mills, and ten flour mills have been set up within the past few years. The quartz mills in the State are counted at over one hundred and fifty, costing $40,000,000. They should average, if all were running on medium ores, not less than $3,000,000 per year. Wages rule at five dollars per day. A resident of Golden City is soon to erect a blast furnace and rolling-mill at that point. The mill is to turn out rails for the road that is to be constructed between Denver and the towns of Central and Empire, passing through Golden City.

IT appears that the Canadian canals don't pay expenses. It costs more to keep them up than they bring in. The amount of this loss is now the handsome little sum of $2,100,000 a year; no joke to a struggling young commonwealth. But as these canals are not only worthless to their owners, but are actually involving them in ruin and bankruptcy, they propose to sell their use to the people of the United States, as a consideration for the concession to Canada of all the advantages of belonging to the Union, without any share of the burdens and responsibilities of that relation. It is a pretty smart idea, but we are afraid it won't succeed.

THE New York *Express* speaking of the advance made in rents by the landlords in the city says: "Outside of the city the price of real estate has not risen materially. Property can be bought there at about the same price in gold as before the war. In the city, lots which were supposed to have reached their full value long ago have lately changed hands, at more than 100 per cent. rise on the price asked for them before the war. At the same time it will be noticed that an immense quantity of real estate is for sale, owners being apprehensive that the present value cannot long be upheld."

HOMICIDE IN SOMERSET.—We learn that an affair, which terminated fatally occurred at Mitchell & Hearn's store, in Somerset county, on the 26th of January. It appears, as we learn the facts, that David Hearn had been wrestling with Noah White and rather got the worst of it. He went into the store, and on his return discharged a pistol. At the time none of the by standers supposed any one to have been hurt, but shortly afterwards Perry White was discovered on the other side of the fence dead, with a ball through his breast.—*Cambridge (Md.) News.*

FIFTEEN ladies of high rank in Paris left their cards at the Princess de Metternich's on New Year's day, each card accompanied by a roll of gold pieces to the value of $12, and bearing a pencil message, which ran thus:—"For your poor, Madame, this is the only *étrenne* we make this year." So rational an example it is to be hoped will not be forgotten next year, and thus at present a custom senseless and useless in the extreme might be the means of bringing endless blessings and unknown comfort to many a cheerless and fireless home.

THE IRREPRESSIBLE LAIRD.—A trustworthy Liverpool journal announces that Laird, M. P., is at his old business of ram building, this time for the belligerents on the Pacific. His Confederate ventures paid him so handsomely that he thinks Chili a fair field for speculation while the conflict between that power and Spain shall continue. Laird is probably right; at all events he is justified as much now in violating the municipal laws of his country, as he was when he sent out the *Alabama* and built the rams for the Emperor of China.

SOUTHERN TESTIMONY ABOUT FREEDMEN.—A letter from Mr. Reed, of New Orleans, to an officer of the Treasury Department says that in some of the parishes the freedmen are fleeing for their lives; that they refuse to work for their former owners, but are seeking northern men for whom they are desirous to work on any terms, and that when employed by such men, they work faithfully and industriously. They say that their old masters oppress them the same as formerly.

GEORGIA SENATORS ELECT.—Information from Georgia is to the effect that Stephens and Johnson have both accepted the Senatorships to which they were elected. Stephens, after writing several coquettish letters, was asked categorically if he would serve in the Senate. He answered as follows: "I cannot imagine any possible case in which I would refuse to serve, to the best of my ability, the people of Georgia, in any position they might assign to me, whether assigned with or without my consent."

RECEIPTS OF THE EXPRESS COMPANY.—From the official returns of the receipts of twenty-one of the largest express companies doing business in New York for the fiscal year beginning with July 1, 1864, and ending with June 30, 1865, it appears that the aggregate is $13,733,288. Adams' Express leads the list with the amount of $5,942,885, and the other companies equally prosperous and flourishing statements.

THE CASE OF MRS. KIRBY.—Mrs. Ann E. Kirby, of Richmond, charged with the murder of her husband, has been sent to the lunatic asylum of Virginia, under an act lately passed by the Legislature, as asked for by Judge Lyons, of the Richmond Hustings Court. The judge decided from the testimony that she was insane, and under the act will remain a prisoner in the asylum until reason is restored.

MANY years ago, an estimable young lady of St. Louis was married, and on leaving the church the bridegroom mysteriously disappeared, and was never heard of more. After waiting months and years for the return of her heart's idol, she renounced the world, and now we read that she died at a Convent Hospital, after a life devoted to charitable and religious deeds.

AMONG the newspaper enterprises contemplated in New York is the establishment of a new daily, to be started the first of May, and to be called *The Metropolis*. It is to contain no editorials or selections, but simply telegraphic and city news, the local department being attended to with great care, and made the main feature, as it is that in which the other papers are most deficient.

THE Council Grove *Democrat* is informed by Colonel Leavenworth, Indian agent, that he succeeded in recovering two white women, Mrs. McDaniel and Mrs. Spriggs and six children, who were taken captives by the Indians in Northern Texas last summer. The Indians have yet three children, which they promise to deliver up.

THE city directory of Mobile, just issued, contains about 7,000 names, upon which the population (including freedmen) is estimated at 50,000. The Mobile *Tribune* says it is a fact of some interest, that of the names which were in the last issued directory, of 1860, not more than about one-third are in the directory of this year.

THE Cleveland *Leader* says that Orliff C. Miller was convicted on Friday in the United States Court of the crime of passing counterfeit ten dollar Treasury notes, and sentenced to a term of six months to the Steubenville jail. He set out for that place on Friday afternoon in the charge of a Deputy Marshal.

WHITE LABOR.—Quite a large number of white laborers arrived here on the Kent on Monday. There being a great demand for hands among the farmers throughout the county, we learn that these new comers readily obtain employment.—*Cambridge (Md.) Intelligencer.*

IT is stated that the ice dealers of Philadelphia have secured, for the first time for several years, a full summer supply of Schuylkill ice, of the very best quality. The amount secured will reach about 125,000 tons. The prospect of cheap ice next summer is quite flattering.

THE Cleveland *Herald* says the ice on the Lake extends as far as the vision of the eye can reach. Along the beach in front of the piers, it is piled up in many places to the height of ten or fifteen feet. It is seldom that such huge piles of ice are seen in front of the city.

YOUNG men in Lawrence, Kansas, have to marry to get shelter from the weather, the landladies there take none but married people. The unfortunate youths say it is a conspiracy between the young ladies and the boarding-house keepers.

A WAR CLAIM PAID.—It is understood that General Meigs yesterday paid Mrs. Bertinatti, nee Miss Boss, of Mississippi, fifty odd thousand dollars for losses sustained while she was unmarried, and in the Confederacy at Vicksburg.

THE wealthiest congregation in New York city, perhaps in the whole country, is that of the church of the Ascension (Episcopal,) in the Fifth Avenue. Their aggregate income, last year, is shown to have been $18,000,000.

ARREST OF GOV. MOREHEAD.—It is stated that ex-Governor Morehead, of North Carolina, has been arrested by the Federal authorities for interfering with the sale of some property previously advertised to be sold.

EIGHTY thousand Germans, writes a Berlin correspondent, emigrated last year, via Hamburg and Bremen. About 15,000 more, it is calculated, left for the same destination by way of France, England and Belgium.

THE bodies of the Union soldiers who fell in the skirmish near Falls Church in 1861, are being disinterred for re-burial in the Soldiers' Cemetery, at Arlington.

GEN. COOLBAUGH has been arrested in St Louis, charged with having been concerned in swindling operations in different parts of the country.

An Exciting Scene upon the Schuylkill—A Lady and Child Break Through the Ice.

On Saturday afternoon a large number of persons were congregated together on the Schuylkill river, for the purpose of engaging in the exercise of skating, and the scene thus presented was quite attractive, all appearing to enjoy themselves greatly.

About half-past four o'clock a cry of distress was heard to proceed from the river above the dam, when a rush was made to the spot from whence it proceeded. It was found on investigation, that a young lady named Adele Rabaud, residing in Marshall street, below Oxford, had broken through the ice while in company with her nephew, Robert Rabaud, aged nine years. Efforts were immediately made to rescue the parties from their perilous position.

The young lady, being an expert swimmer and possessed of much self-possession, succeeded in keeping her head above water. The child was caught by her and held above water sufficiently long to keep it from strangling, and until rescued from drowning by a gentleman friend who came to their assistance. Miss Rabaud refused aid until the child was saved. Soon after she was also extricated, but not until she had been in the water for a considerable length of time. They were then taken to a public house near by and necessary aid administered to them.

The heroic conduct of the lady in question was the cause of much commendation from those who witnessed the scene, and it was mainly to her efforts that the child was saved from a watery grave. During yesterday the residence of the persons in question was visited by a number of anxious friends, who manifested a deep sympathy in their behalf. The kindness of the keeper of the public house in furnishing clothing and other necessities, was also spoken of in terms of praise by those who witnessed the exciting scene.

The spot where the accident occurred was covered with new thin ice, the old having been removed for the purpose of having it stored in an ice house, and no signal had been placed over it, showing great carelessness in the person performing the labor.—*Phil. Enquirer.*

THE total number of the graduates of West Point, who were in the regular army at the commencement of the war, was eight hundred and twenty. Of this number one hundred and ninety-seven resigned and joined the South, leaving six hundred and twenty-one loyal graduates who remained in arms for the Union, of which number no less than one hundred and thirty-eight, or nearly as many as those who resigned, were natives of the Southern States.

SPECIAL NOTICES.

AYER'S AGUE CURE, for the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arises from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell because one bottle cures a whole neighborhood.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. ja16:2m d&wF

BETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC.
THE DRESSING AND RESTORER OF THE AGE!
TURKISH BANDOLENIAN.

BETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Betrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

CITY AND SUBURBAN.

Allegheny Board of Controllers—Election of Officers, etc.

A regular meeting of the Allegheny Board of Controllers was held on Tuesday evening, February 6th. Present—Messrs. Thompson, Geo. R. Riddle, Lockhart, Barr, Swift, Young, Baker, S. Riddle, J. Brown, Jr., Dunlap, Boyle, Thorn and Bole.

On motion, Mr. John W. Barr was chosen President *pro tem.*

The following named gentlemen, elected to fill vacancies in the Second Ward Boards, were enrolled among the members:

First ward—Robert White, J. B. Ingham.
Second ward—R. Lee, S. H. Nesbit.
Third Ward—F. Beckart, F. Torrence.
Fourth ward—Thomas McCance, R. S. Francis, Royal Kollock.

An election for officers to serve for the ensuing year resulted in the unanimous choice of the following named gentlemen:

President—Rev. J. B. Clark, D. D.
Secretary—R. B. Francis, Esq.
Treasurer—W. Hamilton.
Receiver—D. Mcferron.
Janitor—John Culbertson.

The President was authorized to appoint the several standing committees.

The time for holding the regular meetings was changed from the second Tuesday of each month to the first Tuesday of January, April, July and October.

A petition was presented from the teachers of the Third ward, requesting one-half day in each month for the purpose of visiting the different schools, with a view to studying the methods of teaching, systems of government, etc., so that they might take advantage of any improvements which might come under their notice.

An animated discussion followed, in which the teachers were severely "rubbed" for having wilfully and persistently neglected the Institutes, which at one time promised to result in so much good to themselves and the pupils under their charge. It was admitted that much might be gained by visitation, but there was danger that the time might be devoted to "gossipping" rather than to earnest efforts to gain useful information.

The petition was laid on the table.

A petion was presented, signed by a large majority of the Female Teachers, asking for an increase of salaries. The petitioners say:

"Taking gold at its present premium, the value of a dollar in currency is a fraction over sixty-nine cents. At this rate the lowest salary paid in gold is $20.83, and the the highest $27.60. But the premium on gold is not equal to the advance in the price of the necessaries of life; hence, it is not an exaggeration to say that the present salaries are not equal to one-half of the same number of dollars previous to the war. Teachers, of corresponding grades in our sister city, as also in the surrounding boroughs, are receiving from fifteen to thirty per cent advance on our salaries, while it is well known to all that their labor and responsibility is not near so great; inasmuch as the number of pupils to a teacher in Pittsburgh is fixed at thirty-five, while in this city it is fifty-five."

The petition was discussed and referred to the Committee on Teachers and Salaries.

The Secretary submitted the petition of T. S. Wakeham, Principal of School No. 4, asking that the Latin language be added to the list of studies, granting to each Principal the privilege of introducing the study whenever in his judgment it might be deemed an advantage.

A motion was adopted, granting the privilege asked.

Professor Emmons, author of a "Chart o the Solar System," was introduced, and explained the advantages of his chart in aiding the study of geography and astronomy.

It was resolved to introduce the chart into all the schools, and the Secretary was instructed to purchase the requisite number.

On motion adjourned.

Rev. H. W. Beecher's Lecture.

This eminent divine delivered his Lecture on "Work and Workmen," at the City Hall, last evening, before an immense audience.

His idea was that any useful employment was work; that all work was honorable; that different sorts of work differed in honorableness, in exact proportion as the higher faculties of mind and heart entered into them; and that this is, also, the measure of the compensation paid for work. It was folly for a man who used only muscular power to complain that he was less honored or rewarded than another man who necessarily infused his labor with the noblest qualities of intellect and emotion. Most men are known are known by the sort of work they are content to do; and it is folly for men idly to complain that they are capable of something noble, when they remain stationary, and do not develop the higher capabilities with which they claim to be endowed. Some men, indeed, have capabilities more than they can exercise in their common callings, and these capabilities run even into their private life, and are known only by their familiars.

Slavery is a system under which it was possible only to use muscular power and the rudest industries; because to develope the intellect is impossible, and retain them in servitude. And this explains why a slave community is unnecessarily a poor community. Working mainly with muscular power, the rate of remuneration is much lower than where the higher faculties are engaged. This difference between slave labor and free labor, and their results, was fully exhibited during the war. The South was exhausted in the contest, while the North came out with resources undiminished and even increased.

The education of the laborers was the true secret of improving the amount of their earnings and of their respectability. This is a meagre outline of the train of thought. But the lecturer vivified it with a surpassing wealth of imagery and illustration, and that peculiar magnetism of manner which constitutes one of the main elements of his almost unprecedented popularity.

Mr. Beecher will deliver a lecture on Reconstruction in the same hall to-morrow evening. Seats may be secured at and after ten o'clock in the morning.

Paid Their Bounty Tax.

Our readers will remember that some days ago, two Germans, named Wm. Rensenbrink and Wm. Fork, were arrested by officer D. S. McKnight, of Allegheny, they having refused to pay bounty tax, on the ground that they were aliens. They were in consequence committed to jail, "until such time as the said tax was paid," it amounting in the aggregate to fifty-five dollars. After remaining in prison until Saturday, employing counsel, etc., they came to the conclusion that the plea of alienage would not avail them, paid the tax with cost, and were released.

Officer McKnight has the collecting of all unpaid bounty taxes in Allegheny, and delinquents are notified to pay the claims against them, or they will be dealt with in a summary manner.

Sale of Real Estate.—T. A. McClelland, the well known auctioneer, 55 and 57 Fifth street, had a large sale of real estate yesterday. The three story brick warehouse, 273 Liberty street, at present occupied by Alexander King, Esq., was purchased by Charles Arbuthnot, Esq., dry goods merchant, for $20,500. Martin Heyl, Esq., purchased the warehouse, 289 Penn street, for $6,300. Two dwellings adjoining the last mentioned property, were "knocked down" to the same bidder at $7,000 and $6,700 respectively.

The sale was largely attended by our most substantial merchants, the bidding was spirited, and the auctioneering executed in the very best style of the art, as it is always done by McClelland.

Meeting of City Councils.

A special meeting of the Select and Common Councils was held last evening.

SELECT COUNCIL.

Present: Messrs. Barckley, Brown, Gallagher, Herdman, McClintock, McMillan, Morrow, Normine, Rees, Thompson, White, Wilson and President McAuley.

The minutes of the preceeding meeting were read and approved.

A communication from Mr. McCargo, City Controller, covering a bill of Lemon & Weis, for desks for the members of Councils from the Tenth ward, was read, and a resolution authorizing the Controller to certify a warrant on the Treasurer for the amount, was adopted.

Mr. McMillan offered an ordinance instructing the Recording Regulator to advertise for proposals for the grading and paving of Logan street, from Webster to Bedford streets, in the Sixth ward, which was read three times and finally adopted.

Also, an ordinance for the construction of a public sewer on Market street, from the present terminus of the sewer on Liberty street, along Market to Fourth streets. Read three times and adopted, and Messrs. Wm. Holmes, Andrew Miller, and John J. Stoer appointed appraisers, to assess the damages and benefits derived from said improvement.

A petition from Mr. P. O'Brien, asking for permission to erect an iron clad building on Pennsylvania avenue, Eighth ward, was read and referred to the Committee on Wooden Buildings. In Common Council laid on the table.

Dr. Gallagher announced that a meeting of the Sanitary Committee, appointed by Councils, will be held on Monday evening next, for the purpose of organizing.

An election for two members of the Board of Guardians for the Poor was then entered into, and resulted as follows: James Robb received thirteen votes, Dr. A. G. McCandless, nine votes, and William Ward six votes. Messrs. Robb and McCandless were declared duly elected.

The Council then adjourned to McGinley's Saloon, on Fifth street, and partook of an oyster supper, furnished by the newly elected Guardians of the Poor, which passed off in a pleasant manner, Mr. Robb and Dr. McCandless vieing with each other in making their guests at home on the occasion.

COMMON COUNCIL.

Present—Messrs. Ardray, Beck, Boggs, Brush, Dickson, Ford, Hare, Killen, Mawhanny, McEwen, McQueenan, McClelland, McGowan, O'Neill, Patchell, Robb, Simpson, Torley, Weldon, Welsh, Wright, and President Steel.

Minutes of the last meeting read and approved.

The President stated that the first business in order, was the election of two members of the Board of Overseers of the Poor, on the part of the Common Council. The following persons were placed in nomination, each receiving the number of votes set opposite their names:

Henry Hays	12
John W. Taylor	16
James B. Hill	11
J. D. Kelly	3

Council concurred in the report of the Viewers in reference to the grading and paving of Penn street, approved in S. C. at its last meeting.

Mr. Killin presented an ordinance, giving the Mayor power to detail policemen for special service. Read three times and passed.

Mr. Robb offered a resolution instructing the Gas Committee to have placed two public lamps on the south side of Sixth, between Wood and Smithfield streets. Referred to Gas Committee.

Mr. Ford presented a petition from owners of property on Smith street, in reference to the grading and paving of said street. Referred to Street Committee.

Mr. Killin presented an ordinance against the erection of wooden buildings in the city, particularly those known as "iron clads."

Mr. Torley moved to lay the ordinance on the table. The yeas and nays were called for, and resulted as follows: Yeas—11; nays—10.

Mr. O'Neill offered the following, which was read three times and passed:

Resolved, That the Chief of Police be and is hereby instructed to make information before the Mayor against all parties violating the ordinance prohibiting the erection of wooden buildings in the city, or without the proper authority may have been guilty of erecting the same, and that the City Solicitor be instructed to attend to the prosecution of said suits.

[Ordinance passed at the last meeting of the Common Council fixing the bail of the Mayor at $10,000 was reduced in Select Council to $5,000, Common Council receded, and concurred in the action of Select Council.]

Mr. Weldon offered a resolution for the construction of a sewer from the corner of High and Webster streets, on High and Sixth, and from thence to the Allegheny river. Referred to Street Committee.

Mr. Torley offered a resolution in favor of a gas lamp on the corner of Seventh and Prospect streets. Referred to Gas Committee.

On motion, adjourned.

Body Exhumed.

Coroner Clawson, yesterday, summoned a jury and proceeded to Mount Union Cemetery for the purpose of exhuming the body of Jno. M. Nevin, who died on the 16th of October last. We need not state anew the circumstances of his death. Suffice it to say, that strong suspicions attach to his wife for having poisoned him, and she is now in prison on the charge. The body was raised, and after two witnesses, George Irwin and B. A. Stoney, had identified it as that of Nevin, Dr. Geo. L. McCook, in the presence of the Coroner and the jury, proceeded to disembowel the corpse, placing the contents in the custody of the Coroner, who brought them to the city. The stomach and contents will be analyzed by a competent chemist, who will report to an adjourned meeting of the jury two weeks hence.

In this connection, we desire to enter our protest against the "penny wise and pound foolish" policy of paying a physician the paltry sum of ten dollars for performing a duty which should command at least one hundred.

Amusements.

THEATRE.—Mr. J. E. McDonough and Miss Sophie Gimber Kuhn will both appear this evening again in the great Irish drama of "Arrah Na Pogue." Go early if you want a good seat.

OPERA HOUSE.—Miss Jean Hosmer will appear this evening as "Evadne," in Shield's great five act tragedy of "Evadne, or the Statue."

MINSTRELS.—Skiff and Gaylord's Minstrels will commence an engagement at Masonic Hall to-morrow evening. Among the new features of this troupe is the great musical panorama of Sherman's March from Atlanta to the Sea.

BEECHER.—This world-renowned lecturer will appear again this evening at the City Hall—subject: "Reconstruction." Seats may be secured this morning at the City Hall.

GRAND SOIREE.—Prof. Cowper's Grand Juvenile Fancy Dress Soiree comes off at Wilkins Hall on Friday evening.

GRAND ORATORIO.—Prof. Wamelink, assisted by the German Choral Society, will give a grand oratorio in St. Pauls Cathedral on the 8th instant. See advertisement in another column.

FANCY DRESS BALL.—The Vigilant Steam Fire Company will give a Fancy Dress Ball on the 7th proximo.

SKATING PARKS.—Both the Union and Central Skating Parks have been well patronized for the past few days, notwithstanding the fact that innumerable outlets for skating have been opened up during the recent "cold snap" all along the banks of the Allegheny, Monongahela and Ohio rivers.

Allegheny Fire Company.—The following officers have been elected to serve during the ensuing year: President, W. J. Montgomery; Vice President, William J. Wilson; Secretary, Henry Carson; Treasurer, E. Gregg; Captain, B. McKenna; First Lieutenant, John McShane; Second Lieutenant, Henry Ochse; First Hose Director, William Riley; Second do, Jas. Wherry; Third do, Richard Swan; Fourth do, John Scott; Trustees, J. V. Donaldson, William McLaughlin; Axemen, M. Pender and E. McKenna; Election Committee, William Riley, B. M. Kenna and John McShane; Delegate to the Association, J. V. Donaldson.

Alderman Hunter.—Yesterday morning in the District Court, on motion of John M. Kirkpatrick, Esq., William H. Hunter, Esq., was sworn into office as Alderman of the First Ward. Mr. Hunter for many years past has occupied a prominent position in the book and job printing establishment of Wm. S. Haven. Previous to taking up his residence in this city he resided in Wheeling, and has many friends in that locality who will be glad to learn that he has grown to aldermanic proportions since his advent in the "smoky city." That he will make a good and efficient Alderman no one who knows the man will for a moment doubt.

Before Commissioner Sproul.—John Brotherline, a resident of Hollidaysburg, Pa., was before United States Commissioner Sproul yesterday morning, charged with neglecting and refusing to take out a United States license as an Attorney. The defendant claimed that, although a member of the bar, he transacted no business except for himself, and that it was therefore not necessary for him to have a license. He claimed his ability to prove this assertion, and entered bail for a further hearing on the first Monday of April next.

Mercy Hospital—Acknowledgments.—The Sisters in charge of the Mercy Hospital thankfully acknowledge the following donations through Robert McGraw, Esq.: Miss Jennie McGraw, one box of cranberries; W. H. Hall, twenty gallons cider vinegar; Joshua Rhodes, half barrel of ale; M. Ward, Birmingham, $2; Joseph Ross, one turkey; Miss M. Boyle, Monongahela City, one box of poultry and fruit; Joseph Reitter, Plum township, one ton of hay; John Watson, five gallons old rye whisky; Little & Mechling, two gallons old rye whisky; K. McGraw, one turkey.

Praiseworthy.—Among the contributions for the benefit of the poor of Chicago, we notice a donation of one hundred tons of coal from Gen. G. W. Cass, President of the Pittsburgh, Fort Wayne and Chicago Railway. In Chicago the different railroad companies make annual donations to the poor—an example eminently worthy of imitation by similar corporations having a terminus in this city. Will they act in the matter? If they do, we shall be pleased to note the fact.

Serious Charge.—A warrant was issued yesterday morning by Alderman Taylor of the Fifth ward, for the arrest of a man named Frank Schiller, who was charged on oath of John Moeller, of the Fifth ward, with uttering and passing upon him some time last week, a counterfeit bill of the denomination of five dollars. Moeller believed that said Scheller knew it was counterfeit at the time of passing it.

A Verdict.—In the District Court, yesterday morning, the jury in the case of William J. Findley and Elizabeth Findley, vs. Michael Hartmeyer, slander, rendered a verdict for plaintiff in the sum of one hundred dollars. The defendant alleged that the plaintiff maintained a disreputable house, hence the suit.

Dead.—We some time since noticed the burning of Miss Rebecca Killen, daughter of John M. Killen, Esq., member of the City Council. We are pained to say that she died last night, while her father was absent at a meeting of the Councils. Her death was altogether unexpected, and resulted from inflammation.

Surety of the Peace.—Yesterday morning Mary Jane Smith appeared before Alderman Butler, of the Sixth ward, and made information charging Sarah Morgan, *alias* Buck, with surety of the peace. The deponent alleges that the defendant threatened to "butt" the brains out of her.

FROM YESTERDAY EVENING'S GAZETTE.

Masquerade Balls.

EDITORS GAZETTE:—I see by your advertising columns that a grand masquerade ball is soon to be given in our city. Without wishing to enter into any argument as to the good or evil effects likely to result from this species of amusement, I merely wish to ask you whether masquerade balls are not declared "common nuisances" by the laws of this commonwealth? JOY.

In answer to our correspondent, we may state that, on consulting a legal friend, he referred us to page 572, of Purdon's Digest, where, under the head of "Masquerades," we find the following:

"Masquerades and masked balls are hereby declared to be common nuisances; and every housekeeper within this Commonwealth who shall knowingly permit and suffer a masquerade or masked ball to be held or given in his or her house, and any person who shall set on foot, promote or encourage any masquerade or masked ball, and every person who shall knowingly attend or be present at any masquerade or masked ball, in mask or otherwise, being thereof legally convicted, in any Court of Quarter Sessions of the Peace or Oyer and Terminer and General Jail Delivery, shall, for each and every such offense, be sentenced to an imprisonment, not exceeding three months, and to pay a fine, not exceeding one thousand nor less than fifty dollars, and to give security in such sum as the court may direct, to keep the peace and be of good behaviour for one year."

The above is section first of the act of 15th of February, 1808, and the second section prescribes the form of indictment, setting forth the *reason* of the law, to wit: That masked balls result to "the great danger of the public morals."

We are not aware that the law has been repealed; and if it is still in force, of course the proposed masquerade cannot be *legally* held. Indeed, if our recollection serves us rightly, a similar project was put on foot here a few years ago, but abandoned on the projectors ascertaining that there was a law prohibiting masquerade balls. In this case, however, as in many others, the law can be quietly ignored; but at the same time it is well enough for the public to know just where they stand, when called upon to aid, either by purse or person, a species of amusement which has been placed under the ban of the law.

Shocking Accident—Child Burnt to Death.

An accident of a most distressing nature occurred on Monday afternoon, about two o'clock, at Braddock's Station, on the Pennsylvania Railroad. A new double house had recently been built at the station by Mr. Strathan, one portion of which was nearly ready for occupancy. A family named Woods intended occupying this portion of the house, and commenced to move on Monday. A large fire had been built in one of the upper rooms, in which a little girl, aged about four years, had been left temporarily alone. The carpenter who built the house, Mr. A. L. E. Wallace, son of Robert Wallace, Esq., the contractor, was at work in one of the lower rooms, when he heard the screams of the child. He ran up stairs, and was terrified to find the little girl in flames—her clothing having caught at the fire place. He at first endeavored to save the life of the child by tearing the clothing from its body, but in this attempt his hands were terribly burned, (as the outside clothing was of cotton) and he had to abandon the effort. He then pulled off his woolen working jacket, and tried to smother the flames by wrapping it round the child, but the fire had got such headway that it could not be easily checked. The child was so badly burned that she died in about an hour afterwards. Mr. Wallace was so situated that he had no assistance, as there was no one else in that part of the building. His injuries, although extremely painful, and likely to prevent the use of his hands for a considerable time, are not of a dangerous character.

New Regulations—Strike Among the Car Drivers.

The Directors of the Manchester Passenger Railway Company have made a new rule, requiring the passengers to pay on entering the car, and put their fare, ticket or check, into the box—the driver being prohibited from receiving the money, as heretofore. This regulation went into effect on Monday, but for some reason or other nearly all the old drivers on the "upper route" quit work, and to-day their places are supplied by others. We did not ascertain the nature of the difficulty between the drivers and the company, but, however the "strike" may result, the public are not likely to suffer by it.

The Sunday Liquor Sellers.

Mayor McCarthy has concluded not to impose the penalty upon the two parties charged with selling liquor on Sunday last, but to hold the charges in abeyance, conditioned that if they violate the law hereafter, they will still be subject to the penalty now suspended. This is perhaps well enough, in view of the fact that many others, against whom no evidence was adduced, were equally guilty with the parties accused. It is also intended as a preliminary notice, on the part of the Mayor, to all engaged in the retailing of liquors, that if, hereafter, their houses shall be found open on Sunday, the penalty will be rigidly exacted.

A Police Officer Assaulted.—Yesterday morning as August Eche, one of the Allegheny night watch, was passing down East Lane, on his way home, he came upon a number of rowdies who were acting in an uproarious manner. He ordered them to cease their disturbance; whereupon five of the party attacked him and beat him about the head and face in a most brutal manner. Two citizens, witnessing the affray, repaired to his aid, whereupon the assaulting parties fled and have not yet been arrested.

Alleged Aggravated Assault.—A resident of Ross township, named Robert Frazier, made oath before Mayor Morrison, yesterday, charging John F. Parkins with the above offense. The prosecutor alleged that Parkins and another party, yet unknown, met him on the highway, near Jack's run, on Saturday last, choked him until he grew black in the face, and attempted to rob him. The defendant was arrested by officer Bowden, and upon a hearing before the Mayor, proved an *alibi* and was discharged.

A Youthful Assailant.—A lad named Gallaher, aged about eleven years, and following the occupation of a bootblack, missed a box of blacking yesterday, and accused another lad in the same business, named McKenna, with having stolen it. A difficulty occurred, when Gallaher kicked McKenna in the stomach, inflicting serious injuries. At first it was feared that the injured boy would not recover, but he is better to-day. Gallaher is still in the lockup, awaiting the result of McKenna's injuries.

Alleged Forgery.—Two Cincinnati police officers arrested a man named Keever, in Allegheny, on Saturday, and conducted him to Peoria, Illinois, where he stands charged with forging certain papers to the amount of seven thousand dollars. Keever is a resident of an adjoining township, and was some time ago engaged in buying up hides at Peoria. His relatives are very respectable, and he has heretofore sustained an unblemished reputation.

On his Muscle.—One Joseph Wamely entered a house of bad repute, kept by a Mrs. Johnston, on West street, Allegheny, yesterday evening, and commenced to smash sundry articles of furniture. Officer Hess being at hand, interfered with his operations and conducted him to the tombs. Not having the wherewith to pay his fine, the Mayor this morning committed him to the hill for ten days.

Robbery.—John Morris, a resident of Reserve township, while waiting for the western bound train at the Allegheny Railroad station, last night, had his pocket picked of a valuable silver lever watch.

Disorderly Conduct.—Mayor Morrison fined Wm. Rosenbrink two dollars and costs, on Monday night, he having acted in a disorderly and unbecoming manner.

Gold was off a fraction to-day, being quoted in New York at 139½, against 140 yesterday. The only noticeable change in government bonds is in Five Twenties, which are a shade higher. New York quotations were as follows: 1881's, 103¾; Five Twenties, 103¾; Ten Forties, 94¼; Seven Thirties, first series, 99⅛; second, 99⅛@99¼; third, 99¼; Certificates, 98¼.

No transactions in our market to-day, and there appears to be little or no demand for any of the local stocks excepting bank shares. These are in request, but the extreme views of holders has a tendency to retard operations—the truth of the matter is, holders generally are not anxious about selling, as next to Government bonds, bank stocks are considered the best and most reliable investment in the market.

Oil shares continue very dull, and even Columbia, without doubt, one of the best and most reliable stocks of the kind in the country, is weak with a drooping tendency, though there is but little of it on the market. By private telegrams we learn that Bonnehoff Run sold at 16½ in New York to-day; Pit-hole Creek, 8¼, and United States, 17¼. In Philadelphia, as we learn by same source, Dalzell brought 1¼, Maple Shade, 4¼, and Ocean 15 to 15½—market closed dull in both places.

—The following sale of stocks was made on Tuesday evening, Feb. 6th, at the Commercial Sales Rooms, 106 Smithfield street, by a McIlwaine, auctioneer:

Citizens' National Bank	$ 50 75
Bank of Commerce	108 00

—The commissioners to revise the revenue laws having reported in favor of the abolition of the tax on crude oil, it may now confidently be expected that this unjust and oppressive tax will be taken off, and a new impetus given to many small wells, whose whole profits are absorbed in its payment. It will be also quite an item in the treasury of large companies, and would, of itself, make a handsome dividend.

—The grain dealers of Chicago seem to be racking their brains for expedients to dispose of their damaged wheat. Here is the latest dodge, as given by the Milwaukie *News*:

We are informed upon reliable authority that from five to ten car loads of Chicago wheat are being shipped from Chicago to Milwaukee daily, for the purpose of securing the sale of the rotten stuff from this market. Before being palmed off as Milwaukee wheat, it is probably mixed here with the wheat of our own market. This is a transaction which should meet with prompt and explicit condemnation. We should regret to know that any Milwaukee dealer would countenance the disgraceful business, or that our business men would knowingly assent to it.

—In regard to the future receipts of hogs in Chicago, the following, from the *Tribune* of Saturday, is an indication of what is thought of the matter there:

Yesterday, late in the afternoon, the agents of the different buyers in the city received orders to resume active operations. Nearly every operator went upon the market at the same moment, and, within an hour's time, from 3000 to 4000 hogs were sold, and the market became buoyant, and prices advanced 12@15c per 100 lbs. The only reason for this action on the part of operators, that has thus far been developed, is the light receipts and the fear of a short supply to-morrow.

The market closes firm at the improvement, with the numbers in the yards reduced to from 3000 to 4000.

—The import entries for the past week, including the dry goods return in our last paper, amount to $7,222,573, as against the total entries of $2,586,909, same week last year. The export clearances of domestic produce amount $3,449,470 against $5,416,960 same week last year. The export of specie amounts to $292,568 against $285,497 same week last year. The customs for the week are $3,343,271. The receipts of cotton, coastwise and by railroad, are 15,964 bales. The number of emigrant passengers arrived during the week, 1176.—*N. Y. Times.*

ALLEGHENY CATTLEMARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, February 6, 1866.

CATTLE—The supply of cattle was again light this week, not exceeding one thousand head, and of this number about eight hundred changed hands, the balance being left over for next week or shipped East. The market, notwithstanding the meagre supply, was a dull one, the demand being restricted almost entirely to supplying the wants of the retail trade, and, as compared with last week, prices have still further declined. The quality of the cattle on sale, although about up to the usual standard, was not as good as last week. The best retailing grades sold this week at from 7 to 7½ cents, gross—a few extra bringing 7¾@8—while common and inferior sold from 6 down to 4 cents—some few "scalawags" were disposed of at 3½. The discouraging advices from the east for some weeks past, are having a very depressing influence on the market, keeping eastern buyers away and causing the trade generally to operate with great caution.

HOGS—There appears to be no demand at these yards aside from the retail trade, and we have not a single round lot operation to record. In a retail way we can report sales to a fair extent at from 10 to 11 cents gross, for fair to good averages. Our packers appear to have retired entirely from the market, and we presume that there will be no more hogs packed here this season.

SHEEP—Demand for this class of stock continues light, and while the market is dull and heavy, prices are nominally unchanged, ranging from 6 to 6½, gross, for good to prime fat mutton Sheep. B. Scattergood reports having retailed 107 head averaging 96 lbs, at 6,40 to to 6,50. Nothing doing in stock Sheep.

SALES OF CATTLE.

Carr & McAllister retailed 48 head of cattle (from Cincinnati) for Socrates, at 5¼@7¾; 30 very common cattle, for Shaffer, at 4¼@5¼.

Rotchilds & Eckert to Marks & Traurman 18 head, averaging 1150—price unknown.

Kerwin sold for Marks 17 head of mixed Ohio cattle, averaging 975, at 4½@6¾; 12 for Unger & Shaffer at 5½@7.

Glass & Lafferty retailed for John Stroupe 18 head of mixed cattle at 4½@6¾; wholesaled 18 head for S. M. Lafferty to Crouse & Haas at 6¾; 11 head on their own account at 5¾@7. Campbell to McVeigh 13 head, averaging 1050, at 5¾.

McClure to Marks & Traurman 18 head of prime steers, averaging 1200, at 6¾; Hashhouser retailed for Silvies 37 head at 5@7¾; Tube to Rothchilds & Eckert 20 head—price unknown.

Morton to Klemen 11 head of rough heavy cattle, averaging 1200, at 5¾. Good & Kurtz retailed 14 head 4½@6¼.

Marks & Traurman retailed 103 mixed cattle at prices ranging from 4½ to 7½. Chas. Marks retailed 17, and Merrick & Doud 36.

Myers & Bro. wholesaled 36 head of prime cattle to Wm. Reis & Co., averaging 1200, at 7½; retailed 54 head at 5@8.

Crouse & Haas retailed 38 head at 5¾@7¾; Reis & Co. retailed 55 head of mixed cattle at 5@7.

Greenwald & Kahn had 22 head left over from last week, and received 59 from Chicago this week, making 81 head, all of which they sold at from 5¾@7¾. This firm, also, sold one extra premium heifer to Valentine Johns, weighing 1200 dressed, for $225. Mr. Johns keeps a meat shop on Wylie street, in this city, and lovers of good beef should give him a call. Messrs. G. & K. have also, on sale, one premium steer, weighing 2000, said to be the finest bullock that has been in this market for a long time.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, Feb. 6, 1866.

There is no improvement to note in the tone of the general markets, either as regards demand or prices, and there is nothing doing aside from supplying the immediate wants of the local trade. The attendance on 'Change was quite large to-day, and several transactions were effected. This institution, we think, may now be fairly regarded as a success; and those of our merchants who have not yet become members, should do so at once. Full and reliable reports are received from New York, Chicago, Cincinnati, Louisville and St. Louis, daily, giving detailed accounts of the markets, etc., etc., should be a sufficient inducement to enlist the assistance, and sympathies of our business men.

GRAIN—Wheat is dull and heavy, with a drooping tendency; sale of 1 car No. 1 Chicago Spring at $1,60; and 1 car prime Red at $1,98. Corn—sale of 1 car, shelled at 63, in bulk; 1 car, in ears, at 62; and small sales at the usual advance. Oats—sale of 200 bushels prime, from store at 50, 200 do at 47. Barley is very dull, and too irregular to quote correctly. No transactions in Rye.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, Feb. 6, 1866.

The Crude market was less active to-day, the sales falling considerably short of those yesterday, but there is no quotable change in prices. Sales of 400 bbls on the spot (46° gravity) at 19½; and 500 bbls (good gravity) to be delivered on the opening of navigation, at 20. For packages included, 25c may be regarded as the ruling quotation for good merchantable oil, and the supply is steadily being reduced. Refined, in bond, was in good request to-day for Philadelphia delivery at 50c, delivered there, but our refiners are still holding back for something to "turn up"—a better market and higher prices. On the cars here, 44@45 appear to be the asking prices. Free Oil is dull but unchanged—small sales at 64@65c. Sale of 100 bbls Residuum at $5 per bbl. No demand whatever for Naptha.

A telegram from Oil City, under date of Monday evening, says: "In the Rouseville market Crude Oil remains firm at $5, and but little is offered. But little oil of low gravity can be found. Wells producing 42 to 44 gravity in summer, show but 45 to 48 in the winter."

Pork Packing in Chicago.

The receipts of live hogs for the week ending to-day were 36,515, against 36,204 for the week previous, and 5,118 for the corresponding week last year. The receipts of Dressed Hogs were 43,202 against 40,553 last week, and 12'996 for the same period in 1865.

The shipment of live hogs during the week ending to-day were 2,352 against 1,376 last week, and 4,036 for the same week last year. The shipments of dressed hogs were 8,973 against 8,428 last week, and 6,610 for the corresponding week last year.

Deducting the shipments from the receipts, the balance should indicate about the number left over for packing and butchering:

Receipts from Oct. 1st to date	664,520
Shipments " "	219,569
Balance left for packers and butchers	444,951
" " " " 1864-5	741,739
" " " " 1863-4	839 273

Mr. Henry Milward figures the packing for the season of 1865-6 to date at 335,000, excluding the hogs, live and dressed, in the hands of the packers.

The above statistics are made up from official daily reports of the railroads to the Secretary of the Board of Trade, but in well informed circles there are many doubts concerning there correctness. At the same time this very doubt has existed every season for several years past, but at the close of the season it invariably happens that the discrepancy between the actual packing and the estimates compiled from the railroad returns is very light.—*Tribune, 5th.*

Baltimore Coffee Market.

Feb. 5.—At the opening of the week the cargo of the Edith (3,000 bags Rio) was sold to go west on private terms, understood, however, to have been at 14¼c gold in bond, but the transactions subsequently have been quite limited, the sales embracing only some 400 bags Rio at prices ranging from 19 to 21c. The market, although quiet, has throughout the week been very firm in tone, and for choice grades holders are asking advanced rates. We quote to-day as follows, viz: Rio at 18@19c gold for common to fair; 20@20½c gold for good to prime; 21@21½c gold for choice; Laguayra at 22@25½c gold, and Java at 28@28½ cts gold. MARKETS BY TELEGRAPH.

Finance and Trade in New York.

NEW YORK, Feb. 6.—The *Commercial* says dullness and weakness still predominate in the stock market. Speculation is quiet, notwithstanding the extreme abundance of money. Governments are less active; five-twenties are rather firmer, but seven-thirties are less in demand, and for the moment weak.

The *Express* says at the Stock Exchange a strong attack was made on Reading, which was the feature of the season. There were 6,000 shares sold on sellers option, chiefly at 99, and 4,000 for cash at about ½@¾ above this figure. This had a depressing influence upon the whole list, and lower prices were made.

After call, the market was heavy and drooping, but rallied a little before one o'clock session. The market steady at second Board, and rather better in some respects. At last Board the market was all very heavy and lower. The transactions were large in some instances, exceeding 7000 shares on Reading and 5000 on Pittsburgh.

The following were the closing prices: Ohio & Mississippi certificates, 24@24¼; New York Central, 86¾@86⅞; Erie, 76¾@77⅛; Hudson, 99@99¼; Reading, 97⅛; Mich. Southern, 65¾@65¼; Cleveland & Pittsburgh, 79½@79¾; Rock Island, preferred, 53¼@¾; Mariposa, 11@11¼; do. preferred, 15@17.

The stock market was stronger after the last board; Erie sold at 76¾; Pittsburgh, 79½; Reading 97¾; and Michigan Southern, 86¼.

The money market continued easy and no change to notice. Gold market firmer towards the close, and left off at $1,39¾, regular. Cash gold very scarce this afternoon, and ¾ per cent was paid for the use of $40,000 over night. There was quite a break in the exchange market to-day, and prime brokers bills sold at $1,07½@1,07¾. Cotton bills in large supply and deficient of sales.

New York Market.
